

Look out Taurus — lots of money is coming your way

Forecast Period:
December 27 - Jan. 2

ARIES (Mar. 21 - Apr. 20): During the first few days of this week you'll receive some pleasing news from close family members. Changes at home planned for mid-week should be delayed or you may wish that you hadn't been so extravagant. A romantic relationship seems to take a serious turn. Don't let this scare you away — it could be what you've been looking for.

TAURUS (April 21 - May 21): Money — something you're a big fan of — will be coming your way! You will get an opportunity to increase your earnings and to make a lucrative investment. This week, you will enjoy quiet evenings with friends and loved ones. You will discover some interesting news about an old friend. Don't believe everything you're told.

GEMINI (May 22 - June 21): This will be a very good week for you. You will meet an interesting Aquarius of the opposite sex and it could lead to an exciting new romance. Just keep one thing in mind: Aquarians don't always have the most conventional ideas. If you understand this one thing, it could lead to a very promising romance.

CANCER (June 22 - July 22): Be patient if you are seeking a pay raise or promotion. Keep your secrets to yourself — otherwise you may find that you have confided in the wrong person. Midweek sees you in an ambitious — perhaps even aggressive — mood, but hold back your enthusiasm until you know the details.

LEO (July 23 - Aug. 23): You're an extremely generous person, and you don't usually like having to be practical with money, but you just

can't afford to spoil loved ones or to take risks gambling. Try to work out a realistic budget which will stand in good stead for the future.

VIRGO (Aug 24 - Sept. 22): Give plenty of care and attention to money matters and you should be able to work out a satisfactory solution to your current financial problems. But beware of interference from friends. If you need a bank loan or a mortgage, an application could see success.

LIBRA - (Sept. 23 - Oct. 23): Romance, fun and increased income is what this week will be all about for you. It will be just one of those weeks in which you have no worries, and your Libra scales are perfectly balanced. A project you've been working on becomes an outlet for creative energy.

SCORPIO (Oct. 24 - Nov. 22): If you've been feeling run down lately, a change in diet may be the perfect remedy. You probably need to get more sleep, too. Scorpios always tend to overdo whatever they do, especially where work is concerned. You will probably get a little philosophical as the year comes to an end. It may be a good idea to write down your goals for 1993.

SAGITTARIUS (Nov. 23 - Dec. 21): A very upset friend will come to you for advice. Make sure you take his or her problem seriously, even if it doesn't sound so serious to you. Watch your finances very carefully this week; an unexpected expense could arrive at any moment. You will be offered an opportunity to make a major change in your life.

CAPRICORN (Dec. 22 - Jan. 20): This week you will feel like throwing caution to the wind. Since you've been so serious through all of 1992, you'll decide to make the last week a memorable one. Friends may say that you're acting out of character, but Capricorns never allow themselves too much fun. You'll go back to your usual practical conservative self in no time.

AQUARIUS (Jan 21 - Feb. 19): Your finances are looking up and you should consider new sources of income as a blessing instead of resenting the time the additional work takes up. Plan a careful, well-thought-out budget if you are tackling something that might prove more costly than at first imagined.

This is a good time to evaluate the path your life is taking.
PISCES (Feb. 19 - Mar. 20): Pisces' emotions run very deep. This sign has been referred to as the garbage pail of emotions. It's time for you to throw out the garbage. Stop holding on to the past and focusing on what could have been. Look forward to what will be.
