Common sense from councillor

Dear Editor:

Re: Trim warm fuzzies, Champion January 8 issue

Yes, yes, yes. Councillor Marion Howard is right on the mark in suggesting several studies be cut from the town's budget. Too bad we don't have more politicians with her common sense.

Studies like these are useless, wasteful and fiscally irresponsible. The only people who gain are the consultants.

Abortion is killing

Dear Editor:

Dr. Sushil Suppal or any other doctor that performs abortions knows better than you or I that they are killing a real live human being in its formative stage.

I thought gynaecologists had a special interest in the life and wellbeing of baby and mother.

To perform abortions because it is not illegal is a pitiful rational. I believe most of us like to defer to the oldest original law "thou shalt not kill."

Coming down

One of the old Crawford lumber yard buildings disappeared this week as Region of Halton demolition crews made way for improvements to Guelph Line through Campbellville. The Region financed construction of a replacement building a few yards further away from the curving roadway.
