

HOROSCOPE

Forecast Period: January 24-30

ARIES (Mar. 21 - Apr. 20): This week, you will find pleasure in the simple things in life. Everything will go very smoothly, and you will be happy and content. You will finally have the pleasure of meeting the spouse or significant other of a close associate. You will be impressed with this person. You will discover a new type of food.

TAURUS (April 21 - May 21): Keep track of important documents and papers. If you're not careful, you could lose something that will be very hard to replace. You will get the news that an old friend is coming for a visit. This will lead to many evenings out and good times. Your sense of humor and loquaciousness will be a source of entertainment for your friends.

GEMINI (May 22 - June 21): You will be at your best socially now. Take note of anyone you meet. A new, interesting friendship may be the end result. Where financial matters are concerned, do not gamble on future markets or future prospects. Work will be the source of much frustration; don't let it get to you.

CANCER (June 22 - July 22): Disharmony is indicated in the family circle over the weekend. Handle it tactfully. Give more time to a favorite hobby. Difficult aspects connected with health are strong on the 25th and 26th; care will be needed when working with tools and/or machinery. Give some thought to astronomy and astrology.

LEO (July 23 - Aug. 23): A fairly good week, but work is likely to be somewhat strenuous with coworkers a little quick-tempered. Don't say anything you'll regret. Avoid carelessness with details. Get in touch with your feelings concerning a romantic relationship. A heart-to-heart talk may be in order.

VIRGO (Aug 24 - Sept. 22): Unexpected pleasure can come through friends and social affairs. New forms of recreation may be provided. You will be able to see things more clearly after a conversation with a close associate. The romantic scene may get somewhat complex. Get in touch with your feelings.

LIBRA - (Sept. 23 - Oct. 23): Romantic ventures should be happy over the next seven days, with new relationships easily formed through sudden meetings. It's an extremely good time for contacting influential people whose support can be helpful to you now and in the future. A recent problem will be resolved.

SCORPIO (Oct. 24 - Nov. 22): This is a good week for rest and relaxation. Reading and study can provide recreation and could also provide you with important knowledge that can be of benefit in the future. Scorpios are always ready to learn something new. There is good news at work concerning a promotion or salary increase.

SAGITTARIUS (Nov. 23 - Dec. 21): Over the weekend people will be congenial but the days will be uneventful. Health

should be given special care; avoid overdoing things even if energy seems to be greater than usual. See that you are well wrapped up, especially around the throat; chills are possible. You will hear some interesting gossip.

CAPRICORN (Dec. 22 - Jan. 20): Conferences with important people are possible; they can be pleasant but chances are that they will not be particularly helpful. Toward the weekend, financial matters look promising. A loved one may be feeling left out; let your true feelings shine through. Make sure you get plenty of rest.

AQUARIUS (Jan 21 - Feb. 19): This should not be a difficult week, but it does hold some confusion which may be related to future social engagements. The advice of professional people may be especially misleading. Daily routine will not be a problem if thought is given to details. A friend will reach a milestone; this could be a birth or marriage.

PISCES (Feb. 19 - Mar. 20): By paying careful attention to details, this week is not likely to be difficult. Work should progress in a routine fashion. Do not become involved in distant affairs; misunderstandings or deceptions are possible. On the whole, the week will be slow, with no pressure or strenuous effort needed. Steer clear of shopping malls and any other temptation to spend money.

Your Birthday this Week — The Next 12 Months

This year, you will be on a search for a more interesting lifestyle. You could find it; it's just a matter of research and a desire to break your daily routine. Travel seems likely at the start of spring. It would be wise to start putting aside money now. If you're in a romantic relationship, it will intensify. If not, you could find the love of your life sometime this winter.
