Tickets nearly dried up

The Milton Choristers are sold out of tickets for their popular spring cabaret Friday, May 28.

However, a few rush tickets may be available at the door just prior to the 8 p.m. concert.

Subscription ticket holders are first in line for Pub Night, which will be held at the Bayrischer-Hof Banquet Hall.

They'll be treated to a medley of drinking songs — from the rowdy to

the sentimental — that will spark memories of Oktoberfest in the old country or pub in Scotland.

And there are even some new drinking songs some might not have heard in Canada. "On the Banks of the Don" is a sly twist on the consequences of imbibing too much and landing in Toronto's Don Jail.

This is the last concert in the season under retiring director Dr. Patricia Phillips.

Region plans to enforce 'odd-even' lawn watering days

Lawn watering restrictions enforced by Halton Region come into effect next month and continue throughout the summer.

Local homeowners with odd-numbered municipal addresses (1, 3, 5, etc.) will be permitted to water their lawns only on odd calendar days.

Properties with even-numbered municipal addresses will be allowed to water their lawns on even calendar days.

For townhouse units where the unit number is included in the municipal address (Unit 101, 2 Main St.), the unit number will apply (the odd 101, not the even 2).

As in previous years, the program is implemented on a Region-wide basis for all properties serviced by municipal water supplies. Private wells and surface water from ponds and streams are excluded from the program.

The water restriction program includes all residential, commercial and industrial properties; all municipally owned properties such as schools, parks, arenas, community centres, public works facilities, and golf courses using municipal water.

The program doesn't include the

following: car washing; flower, garden and tree watering by hand; water uses via hand held spray nozzles; newly placed sodding during the maintenance period; lawns treated with herbicide, pesticide, or fertilizer which require water.

Halton Public Works staff is enforcing the program. Violators may receive a \$2,000 fine under the Regional Water Use Bylaw 93-89.

Excess water demand due to lawn watering can strain the capacity of water supplies and storage systems, according to the Region.

• Average lawn watering for one half-hour a day uses 360 gallons of water.

• In Milton, there are 8,200 homes. • If all these homes watered on the same day, more than 2.9 million gallons of water would be used.

Water conservation will reduce the amount of water being used by everyone, and therefore reduce the amount of water being treated and pumped. This will minimize the strain on the regional water systems and reduce the cost to residents on their water and sewer bill.

Fund-raising fireworks

The Milton District Scouts and the Milton Optimist Club are jointly selling fireworks from now until Victoria Day.

Locations include Milton Mall (northwest parking lot), Campbellville fire hall (across from Mohawk Raceway), and at the southwest corner of Trafalgar Road and Steeles Avenue in Hornby.

Fireworks will be sold from noon to 9 p.m. May 19 to 21 and 23, and from 9 a.m. to 9 p.m. May 22 and Victoria Day.

The Scouts' portion of the proceeds will be used to send 44 youths and 10 leaders to Alberta in July to participate in the eighth Scouts Canadian Jamboree.

The Optimists plan to use their proceeds to support ongoing youth programs in Milton.
