## Week Ahead Horoscope

September 12-18, 1993

**ARIES** - (March 21/April 20): Weekend plans may not go as you had hoped. But don't be disappointed, because something good will come out of it. A great deal of diplomacy will be required in order to keep harmony in relationships. A heart-to-heart conversation with a loved one will be revealing.

**TAURUS** - (April 21/May 21): You may find it difficult to concentrate on the simplest things this week. You're better off relaxing, and taking care of details later on. Meditation is a good way to achieve peace of mind. Don't ask prying questions, especially to subordinates at work. An interesting letter will come in the mail.

**GEMINI** - (May 22/June 21): If you can arrange to spend the weekend away from home, you will benefit both emotionally and physically. A change of scenery is just what you need. Financial problems won't seem as monumental as they had seemed a few weeks ago. You will figure out a way to save more money.

**CANCER** - (June 22 / July 22): Don't wait too long to discuss an important matter with a loved one. The sooner you clear the air, the sooner you can get on with other matters. You will have many reasons to celebrate. Something you've been waiting for — that you didn't think would ever happen — finally comes

through.  
**LEO** - (July 23/August 23): If you're not careful, you might spill some closely guarded secrets. This could cause resentment with loved ones. Watch what you say. Just because you're feeling discontented, it doesn't mean you can attack others with unkind words. A more stringent exercise routine is what you need.

**VIRGO** - (August 24/Sept 22): Romance will be the highlight of the week. You may even fall in love. Be on the lookout for Capricorns of the opposite sex. If a higher up at work is making things hard for you, turn to another person of influence for encouragement and support. Time with friends will prove interesting.

**LIBRA** - (Sept 23/Oct 23): This should be an exceptionally rewarding week if you are trying to find new solutions to ongoing problems. Financially, it will be worth while to invest in something to speed up productivity, so be prepared to lay out money on equipment for your business or home. Expect to have a very romantic weekend.

**SCORPIO** - (Oct 24/Nov 22): This will be a week of contrasts. At times it may be extremely difficult to concentrate on your work and, at other times, you will be at your best. What you plan is likely to be quite different than what you expect. Your intense character is likely to be overbearing to loved ones.

**SAGITTARIUS** - (Nov 23 / Dec 21): Unexpected income is likely to occur. Play any lotteries that come your way. You will be unusually successful to sporting events of any kind. People and faraway places will be on your mind towards the end of the week. You will find yourself in the limelight at work.

**CAPRICORN** - (Dec 22/Jan 20): This is a good week for working on projects. Money matters will run smoothly, provided you don't get involved in get-rich quick schemes. You'll realize that hard work does pay off. Expect to be rewarded with a promotion or salary increase. You'll run into an old friend.

**AQUARIUS** - (Jan 21/Feb 18): New friendships could play an important part in this week's events. You will be socializing more than usual. Good news is on the way. Finances will be less of an issue now. An open mind is necessary to achieve harmony at home. Your way isn't always the best way.

**PISCES** - (Feb 19/March 20): A burst of energy gets you moving full speed ahead on projects you've been putting off for some time. You'll wonder why you waited so long to accomplish such simple tasks. This is not the time to splurge. Spending on yourself — or others — could lead you to financial disaster.
