Beaty retires from Share work

Share, an agricultural project conducted mainly in South America, has served as a helping hand to the needy to learn about agriculture.

Share sponsors a large farm in Brazil where 100 boys aged 10 to 12 years are taught farming skills and work for half a day. The remaining time they attend school.

It is so successful, a similar project is being set up for girls. Hugh Beaty of this area has been a member of Share for 15 years and has devoted his time, energy and knowledge to this project.

Mr. Beaty is retiring from his busy schedule with these projects, but wants to ensure they will carry on. He will continue to advise and be on the executive committee.

Greta Vanderdeen hosted the February meeting of the Omagh Presbyterian Ladies Association.

The devotional program was convened by Mrs. J. Hilson and business included a cash donation and letters of thanks for gifts from Mrs. S. Croll and Mrs. H. Peacock. Secret sisters were chosen and the programs for the coming year were completed.

OMAGH

with ELLA PATTERSON

The World Day of Prayer will be held at Hornby Anglican Church March 4 with Bethel, Hillcrest and Omagh churches participating. The annual fall bazaar will be held Oct. 24.

Ada McCann was in charge of the main program and readings were given by Mrs. H. Robertson, Mrs. J. Watson. Mrs. McCann gave each member a beautiful heart book mark in honour of St. Valentine's Day this month.

At the close of the meeting, a sale of marmalade and baked goods was held. Proceeds go to the flower fund. Afternoon tea and lunch were served by Mrs. J.C. Marshall and a delicious birthday cake made by the hostess for Mrs. J. Watson followed.

Due to bad weather and illness, no meeting was held in January.

Sincere sympathy is extended to Donna Giles and family of Niagara Falls on the recent passing of her father Delbert Downs.

Mr. Downs was predeceased by his wife Isabel Carton and daughter Shirley. Until his retirement, he was a successful farmer and custom thresher on the family's Sixth Line farm.

A custom thresher was a most important person to a farmer in the years 1900 to 1960. A custom thresher owned and operated a larger heavy machine that separated the grain from the straw at harvest time. The machine required expertise by operators.

The machine was so hazardous that many workers lost a hand and wore a hook for the rest of their lives. The machines went from farm to farm drawn by teams of horses — later by steam engines and then by tractors.

The threshing machine required two men to operate. It very quickly and efficiently separated the seed from the straw.

In about 1965, the machines became less expensive and less complicated and often farmers with large acreage owned their own. Today these machines are antiques and are on display in the museums.

The late Mr. Downs was one of the best custom people.
