MILTON ROXUL ROOKIE-BALL 1994

Wayne's done a great job in more than one spot
If the ball's hit near him it's sure to be caught,
In straight away centre, it's Chris that we need
He pegs them off anywhere with accuracy and speed,

In right field we're covered all round by Drew
He covers first base and guns 'em down too,
Barry's at second, he's ready and he's set
He knows where to play it for the out to get,

Jacob's in left field and covering third
He'll make the out, of that you're assured,
First base is covered with Iceman's great glove
He'll stretch and squeeze, he goes beyond and above,

Peter's in back-catcher, guarding the plate
Squeeze the ball, tag him, he does it great,

No worries at short stop with hungry Joe
He does what it takes, catch, snag and throw,

Hit to third base and you're a sure out
Juice'll make the play, of that there's no doubt,

At pitcher we have the quick reflexes of Nat
The opponent doesn't stand a chance at bat,

He's played all positions and count on him we do
No way will Mark let that ball get through,

Special mention to Kenny, Darren and Brett
They never let us down, the challenge they met,

Not enough can be said about our little doll
Katie in uniform, the pictures say it all,

Our fans did a great job with plenty of cheering
Course some teams complained of loss of hearing,

On this team we've seen talent all 'round
They put it together, it's magic they've found,

A great job by the coaches, who played the kids right
Cause our team is dynamite, don't mess with dynamite!

Golf star heading south

from U.S. on page 17
Alabama campuses before settling on Wichita State. So far, no regrets according to her mother, Peggy, who says Marsha is really enjoying herself.

The high school provincial javelin gold medalist for four consecutive years will also participate in track at the school. Van Cedar spent much of the summer on a weight-training schedule prepared by her coach at Wichita State.

Neal Courtney,
Slippery Rock University

The Milton District High School graduate is attending Slippery Rock in Pennsylvania on a golf scholarship.

Although he could have attended a Division I school, he opted for the

Division II program for a couple reasons.

Most importantly, it was the only one to offer the sports management program he was looking for, and it also gave him the opportunity to play on the golf team right away, a difficult feat at some of the bigger universities.

The 19 year-old has been working at Greystone Golf Club in Milton since it opened and has been active on various high-level tours around Ontario, as well as playing in the United States.

Jeff Davis, the pro at Greystone, thinks very highly of Courtney. "He'll succeed down there because he's got an incredible desire — a great kid, a great worker. I can't believe somebody out there will practice as much as he does and want to succeed like that."
