## We have the technology

Environment and Energy Minister Brenda Elliott (sitting) learns the ins and outs of a Cornwall water treatment plant operation via computer modem link-up, with the help of Nicole Seguin, a computer specialist, at the Milton firm Thorburn Penny Ltd. Laird Smith, the president of the consulting engineering company, looks on during the minister's visit Wednesday.

## Rockwell sponsors tech challenge

The third annual Engineering Challenge is set to go. The Professional Engineers of Ontario (PEO), Hamilton Chapter, will present a real problem to students in grades 7 and 8 science and technology classes at 15 Halton schools. These students will work with one of the engineers to solve the problem, designed by engineers at Rockwell Automotive in Milton, and present their solution.

Last year about 800 students from 12 schools worked with their teachers and engineers in preparation for the challenge day.

Prizes for the 1996 challenge will include tours, T-shirts, trophies and plaques.

The Professional Engineering Challenge 1996 is sponsored by the Hamilton chapter of the PEO, Rockwell International Suspension Systems, Milton, and both Halton boards of education.

The challenge is limited to 20 teams.

A Rockwell tour and pairing up with engineers will take place on Thursday, Feb. 22.

The actual challenge day is Saturday May 11, from 8:30 a.m. to 1 p.m. at J. T. Tuck public school in Burlington.

For more details on the challenge and how to enter it call Bob Loree at 335-3663, ext. 3205 or Cesare DiDonato at 632-6314, ext. 350.
