**Canine Grooming**  
TREATING PETS RIGHT...AT THE RIGHT PRICE

615 BEAVER COURT, Milton (905) 876-2224

Responsible pet owners think of feeding and watering their pet, but one of their most important needs sometimes goes unattended because of busy schedules; we are referring to the importance of regular grooming and clipping.

The colder months found many pets let out into the wet weather, then brought inside, often creating an odour problem and hair matting conditions. In addition, salt and ice melting chemicals can also build on the pet's coat and irritate skin; pets which often lick themselves can become ill as a result. To keep your pet looking and feeling healthy, dogs should be groomed and clipped on a regular basis, about every six to eight weeks. Bring your pet to **CINDY'S CANINE GROOMING** and forget about the mess and bother of doing it yourself.

**CINDY'S CANINE GROOMING** has been serving pet owners of Milton since opening 18 years ago and is owner-operated by **STEFFI HAY** who acquired the business over 7 years ago.

Complete pet grooming services are available for your dog including shampooing, clipping, de-odourizing (de-skunking), flea baths, matt splitting, shearing & combing, as well as a nail trimming service. **CINDY'S CANINE GROOMING** specializes in all breeds of dogs and even large dogs are handled. No tranquilizers are used at this shop as the experienced groomers understand animal behaviour, so the pets respond favourably. All of their services are reasonably priced.

Make an appointment to drop off your pet at **CINDY'S CANINE GROOMING**.

## QUINN'S BRAKE & EXHAUST

MAKING IT WORK...RIGHT!

310 STEELES AVE. E., Milton (905) 878-7239

A leaky, noisy exhaust system on your vehicle is not just a nuisance, but it can also pose a real threat to your family's health; excessive noise can affect your hearing and result in driver fatigue over prolonged exposure; in addition, if you can smell oil and gas vapours, you are also inhaling poisonous carbon monoxide gas which is odourless and colourless.

Notwithstanding safety considerations, a leaky exhaust affects your gas mileage and engine's horsepower, costing you money.

You don't have wait for obvious rumbling before seeking attention for your vehicle. **QUINN'S BRAKE & EXHAUST** can provide a free inspection of your exhaust, brake, steering or suspension system. If a problem is located, they will provide a quotation and estimate before any work begins.

**QUINN'S BRAKE & EXHAUST** can install exhaust systems for imports and domestic vehicles including custom pipe bending (if necessary), dual conversions, catalytic converters, and high performance mufflers. A "Class A" technician can provide complete brake & front end work, tune-ups, major/minor mechanical repairs, the installation of quality shock absorbers and MacPherson struts, springs, as well as oil changes & lubes.

**QUINN'S BRAKE & EXHAUST** has a history dating back to 1989, formerly known as Milton Muffler & Brake. The shop relocated to its current site in January 1996, but is still owned by **JACK QUINN** and offers the same service & staff you have come to depend upon.
