the unexpected

Don't assume that other driver's will automatically stop at stop signs or traffic lights. Approach intersections with caution and be ready to stop. If you think another vehicle isn't preparing to stop, slow down and honk your horn to alert the driver.

☐ When driving through a large shopping centre parking lot, watch for drivers who ignore directional arrows and well-marked lanes, dashing in a straight line toward one part of the lot. Because shoppers are constantly leaving or walking to their vehicles, drive with extra care at a reduced speed.

☐ Keep in mind the most dangerous time for driving is very early on Sunday morning. According to GM research studies, the most dangerous period is from about 3 a.m. to 4 a.m. on Sundays, often the result of sleepy or drunk drivers. The safest time during the week is from 10 a.m. to 11 a.m. on Sundays. Driving the same distance on a Sunday at 3 a.m. is 134 times more dangerous than at 10 a.m., according to these GM studies.
