FROM THE PRESIDENT...
MICHAEL BOURGON

It wasn't too long ago that we all heard about the changes that would occur at the Ontario Agricultural Museum as a result of provincial budget cuts. Essentially, the Museum was down to reduced hours this summer and will close effective March, 1997. Is the end inevitable? Not necessarily. I would like to take this opportunity to invite you to come and be a tourist in your own home town.

On September 14, 1996 from 10 am to 5 pm, there will be a Save The Ontario Agricultural Museum rally held at the Museum. Proceeds are to go towards an effort to save the Museum from its untimely fate. The dry facts are that the "Ag" Museum is one of the finest collections of this type in North America and deserves a better fate than to be moth-balled. The subjective facts are that it's a fun place to go to. The "Ag" is a great place for adults and kids alike. It's an opportunity to get a real sense of our agricultural past and a look at the ingenuity and entrepreneurship of our agricultural pioneers. I'm always amazed at something or other that gives me a glimpse at the creativity of our ancestors when faced with a challenging situation.

The agri-business community is an important component to the Milton business community and we are honoured that the Museum should be located here. In good times, it has been a real tourism attraction and has brought additional revenues to the business community. The loss of this tourism attraction, especially at a time when Milton is attracting other significant attractions, would be a shame. Tickets are available throughout the community, and at the Chamber offices as well. Don't miss this opportunity. I urge you to support the rally and come have a great day at the "Ag" as well.
