

BRIDES GUIDE

For Your Special Day

Planning Makes For a Great Honeymoon

Due to the months of planning for the ceremony and reception, and paying attention to numerous details, both you and your spouse deserve a relaxing, stress-free, romantic first-time trip as husband and wife.

Most wedding planners suggest meeting with a travel agent to discuss possible locations that will suit your budget and tastes.

Your travel agent can give you some suggestions,

while keeping in mind your budget and the season in which you will be traveling. Remember, many countries have different seasonal climates than you are used to.

Once you have decided upon the perfect honeymoon spot, your travel agent can make all of the necessary arrangements and reservations.

Wherever you choose to go, remember to relax, enjoy each other's company and have fun.

Storage Tips To Keep Your Silver Radiant

Sterling silver can brighten your table, but how do you keep it tarnish-free? Here are storage tips from the experts at the Silver Information Center to keep your silver sparkling:

- Before storing your silver, wash each piece and be sure it's thoroughly dry. Dampness, air and sunlight are silver's worst enemies. So, store your silver flatware in an airtight drawer or chest lined with a tarnish-preventive cloth or in protective bags. Remember to rotate your flatware, not using the

same pieces for each meal. This way, the patina (silver's finish) develops evenly.

- Keep your larger pieces, like trays, candlesticks and serving dishes, in flannel cases or wrap them in acid-free tissue paper first, then place them in a reclosable plastic bag. Never wrap silver in plastic wrap, aluminum foil, newspaper or bind flatware with rubber bands. They can damage the silver's finish.

- Remember, the best way to keep your silver looking its best is to use and enjoy it every day. It has been proven that frequent use actually prevents silver from tarnishing.

Store your silver flatware in an airtight drawer or chest lined with a tarnish-preventive cloth to keep it sparkling.
