

Melissa DeBrouwer
B.Sc.

Mention this ad when you come in for your appointment with me, and receive a copy of "The Pig and The Python, How to Prosper From The Aging Baby Boom", by David Cork.

all you're looking for is past performance, you don't need me ... there are software programs available that track the past performance of mutual funds.

It's never been easier to find out about mutual funds. There are now a number of investment choices available to consumers. There are a number of ways to choose your portfolio.

That means that there are also a number of ways to reach your goals. Some ways are less painful than others, and some methods allow more flexibility. Tax issues, estate planning implications, and current cash flow should all be considered when putting together an investment portfolio.

I can help you understand how much money you will need to retire, how much you will need to save to get there, and how your money should be invested to achieve the highest possible return with the lowest risk. I can also send you to a great florist.

If you're prepared to commit some time and money to your future, I'm prepared to show you how you can most easily enjoy it. The coffee is always on. ☺

Be sure to look for me at the Financial Planning Show at the Milton Mall on Friday, January 31 and Saturday February 1.

We'll make your money do more.
