

On Tall Ship

Milton's 16-year-old Dave Hannon boarded the Joana I in Port Stanley on August 6 for a one-week sail training program. He was one of 100 teenagers from 61 different Ontario communities who were nominated to participate in this unique sail training program by winners of special Second Chance draws in Ontario Lottery Corporation's Shoot to Score instant game.

Flea market gets bitten

Owner Oriana Currie will be allowed to leave one of her Crawford Lumber yard buildings encroaching on Guelph Line if she makes up the cost difference for a road study.

The regional planning and public works committee had suggested it would drop an objection against the lumber yard being zoned for a flea market if Mrs. Currie would enter into an agreement to dedicate part of the lands for road widening.

At regional council on Wednesday, the item preceding the motion on Mrs. Currie's property was about a \$20,300 Campbellville study to look at Guelph Line and how it can be improved.

It was suggested by councillor Joan Little, and subsequently agreed to by council, that the difference between the estimated cost and what is actually in the budget should be borne by Mrs. Currie.

That difference is about \$11,300. Several councillors including Brad Clements and Bill Johnson spoke on the issue.

Mr. Johnson said he thought the main problem (the CPR crossing) should result in the CPR picking up the shortfall.

MOH named

Halton region has a new medical officer of health (MOH).

He is Dr. Graham Pollett, currently associate medical officer of Health in Peel Region. Dr. Pollett replaces Dr. Peter Cole who left Jan. 1 of this year to become Peel's MOH.

Dr. Pollett commences his duties as head of the health department Oct. 1.

Prior to coming to Halton, he has served as the associate MOH in Peel from April of 1983. His previous experience includes seven years in general practice in British Columbia.

He is currently completing his residency in community medicine at the University of Toronto.
