

# Farmers and youth will benefit from jobs

Winter Experience 84/85 will provide more than 200 jobs in the agriculture food sector for unemployed young people between the ages of 15 and 24, Agriculture and Food Minister Dennis Timbrell announced recently. The jobs will run from 16 to 24 weeks at a pay rate of \$4 per hour.

Timbrell said, "These positions will provide employment experience for young

people in the province and at the same time offer assistance to farmers for the many jobs that need doing around the farm in the winter months. They will also provide an invaluable service to consumer groups in urban areas."

There are four programs. New this year is the Winter Agricrew program where 67 positions are available in work groups of two or

four. Farmers may hire a crew of two for \$50 per day, or a crew of four for \$90 per day for maximum of five days.

Also new are 13 positions for Consumer Information Officers, open to food service management graduates, who will deliver programs in consumer information to schools, church groups and senior citizens in urban centres.

Two programs are being extended. The first, Agricultural Trainees, provides 100 positions for young people to work on farms caring for livestock, repairing machinery, and performing other general farm duties. Farmers will contribute \$2 per hour towards the wages.

Winter Experience 84/85 is a program funded by the Ontario Youth Secretariat.
