Students looking for summer jobs would do well to drop in at the Canada Employment Centre for Students at the Milton branch.

The local student employment office which opened last week is receiving a steady flow of job orders, reports Jane Ruhl, one of the centre's co-ordinators.

"There are lots of job orders and we need students, particularly post-secondary students," she said.

Approximately 30 jobs have already been

of career-oriented jobs which provide valuable experience opportunities, said Miss Ruhl.

Both Miss Ruhl, a University of Toronto psychology student, and fellow co-ordinator Brian Serafini, an English major at the University of Guelph, will visit area employers in the next month to find job prospects.

Both are life-long Milton residents and hope their familiarity with the community will assist them in helping out students.

In addition to providing a free registration service for students, the two co-ordinators also offer job counselling and assistance with writing a resume.

The Student Centre also offers employers the service of screening all applicants for each of the jobs and help with setting up appointments and, if necessary, providing office area for job interviews.

Miss Ruhl noted that the Student Centre is looking for part-time and casual job opportunities as well as full-time work for summer students.

"One-day jobs such as window cleaning or grass cutting or farm help are needed," she said, explaining that some looking for temporary work only.

Miss Ruhl said that most posted positions are quickly filled and that it is necessary for students to visit the Centre on a regular basis. She also recommended students should visit employers directly to get ex-

perience in applying for jobs. The Student Centre is open Monday to Friday from 8.30 a.m. to 4.30 p.m. Further information on the services of the Centre is available at 878-8846.

Arequiem for Wayne

By LINDA KIRBY

Thirteen-year-old Wayne Morley lost his battle against lukemia last week.

The Milton youth who had won the hearts. of many in this community died Wednesday, less than two years after he was first diagnosed as having lukemia.

A keen hockey fan and avid fisherman, he was known for his love of the outdoors and his efforts to live a life as normal as possible despite the setbacks of the disease.

When he was first diagnosed in October of 1982, doctors didn't think anything could be done for him in Canada because a suitable donor for a bone marrow transplant couldn't

be found He was then sent to a clinic in Baltimore to undergo a special treatment that involved removing the marrow from the body, treating it and placing it back in the bone.

That treatment cost several thousand of dollars, but was quickly raised through the efforts of Holy Rosary Church where Wayne was a member, and a number of service clubs in Milton.

The treatment however was to no avail, and last December, the youth was admitted to McMaster University Medical Centre for several visits.

Two weeks ago, he went in for the last time

Fire guts barn, nine horses die

By LINDA KIRBY Staff Writer

Nine show jumpers were lost in a \$300,000 barn blaze at a stable on 20 Sideroad near Second Line over the weekend.

The blaze, which remains under investigation by fire officials, is believed to have started shortly before 2 a.m. Saturday and demolished one of two barns on the property owned by Mike Grinyer.

Just 90 minutes earlier Mr. Grinyer had made the final check of the stables which houses a total of 26 horses.

At approximately 2 a.m. he was awakened by a pounding on the door by a passing motorist who had noticed the flames.

Milton robbery seminar May 23

Halton Regional Police will conduct a presentation on how to prevent a robbery and what

to do in a robbery situation. Directed at local business owners and managers, the evening session will be held Wednesday, May 23 at 7.30 p.m. at the senior girls' auditorium at E.C. Drury High School.

The presentation, which includes a slide show and film followed by discussion, was first introduced to Milton business individuals last year.

More than 60 people attended two presentations, given by Halton Regional Police Crime Prevention officer Dave Craw-

Constable Crawford said this year's presentation will once again concentrate on means to deter a robbery, how to react in the event of being robbed and what to do after a robbery has occurred.

This will include a quick course on suspect identification.

Thus far this year, two robberies have been recorded in the Milton area, both of a personal nature. In one case, a hitchhiker from London was held up in the second situation, a 70-year-old man was relieved of \$900 cash at Mohawk Raceway last week.

Though the first barn was engulfed in flames and beyond saving, it was the quick thinking of the motorist which prevented a far worse loss, according to Mr. Grinyer.

After alerting the owner, the man ran out and grabbed a garden hose and began hosing down the exterior of the second barn which had also cought fire, allowing Mr. Grinyer to get out the remaining 17 horses, he

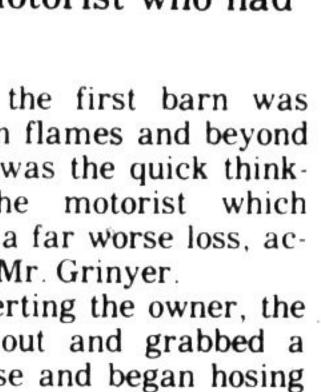

Fire officials have yet to determine a cause of the blaze which kept firefighters from Rockwood, Campbellville and Milton busy until mid-morning Saturday.

The horses were valued at approximately \$180,000 and included a number of high-calibre show jumpers.

Brett completed a successful show season with three wins at the Royal Winter Fair last November.

Other horses were in training for the "A" circuit which qualifies jumpers for such prestigious shows as the Royal and eventually the Canadian Equestrian Team, for inter-

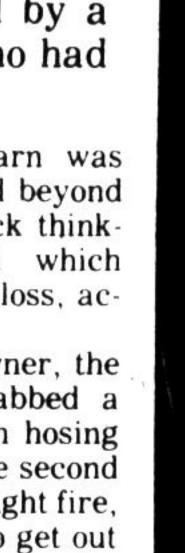

the grim task Saturday morning of having to relay the sad news to owners who arrived and had not already be contacted about the fire.

He added he would very much

Railway 'torpedoes' . . .

... found in Rotary Park Parents warned to watch out for explosives

..... RE1-RE8

Halton Regional Police are issuing a warning to parents and school officials following the discovery of explosive railway signals Wednesday evening in Rotary Park and in the creek running by the Mill Pond.

A number of boxes containing the railway 'torpedoes' were stolen from a locked railway storage shed on Bronte St. behind P.L. Robertson. According to police, the torpedoes

can be dangerous within 100 feet if pressure is applied to them.

Halton Regional Police received a call from a citizen who reported seeing the explosives lying in a field near some of the CN sheds. Boxes of the track torpedoes had been opened and several strewn on the ground.

A search of the area revealed another box of torpedoes scattered down the railway track with more in

Real Estate.

an embankment and some in bushes near Rotary Park.

The track signals are described as being bright flourescent orange, approximately 11/2 inches by 21/2 inches square with the words "caution explosive".

Police said they also located some explosives submerged in the small creek near Mill Pond, but not all the devices stolen, have been accounted

According to the witness who called police, two male juveniles were spotted Wednesday afternoon with several cases of the torpedoes. The youths apparently fled, throwing the articles on the ground.

Anyone locating such a device is requested to leave it alone and contact Halton Regional Police at 878-

Murder charge is laid

A 23-year-old Toronto man has been arrested and charged with second degree murder in connection with the shooting of a young London man in March.

The body of 26-year-old Kenneth Drew Thaell was discovered in a ditch beside Highway 401 near Guelph Line

March 4. He had been shot twice

in the head.

A two-month investigation by members of Halton Regional Police, Metro Toronto Police and London City Police resulted in the arrest of a man early Friday evening.

Police have charged Bruno Travaglione, of 1541 Dufferin St., with second-degree murder
