## Eliminate light to sleep soundly

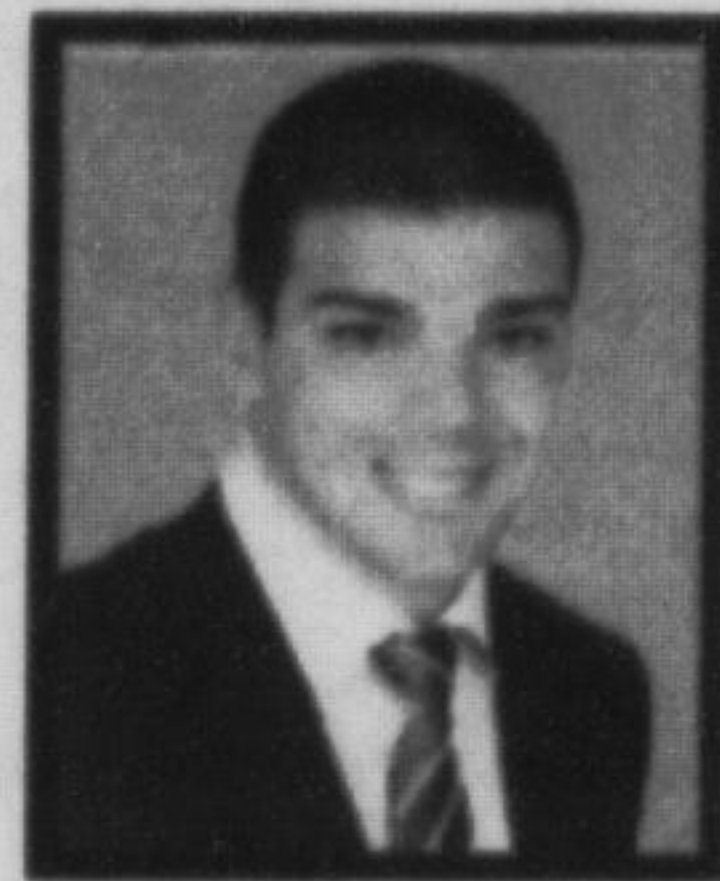

The majority of Canadians are sleep-deprived, according to a report by the World Association of Sleep Medicine. The association has also developed the 10 commandments of sleep, and one of the most important is to eliminate as much light as possible. Now there is a new way to darken your bedroom for sleep, and then enjoy gently filtered natural light plus a view when you want to relax during the day. New Silhouette A Deux window shadings deliver translucency and room-darkening all in one product. Retailers tell us that chief among the Hunter Douglas premium line up, Silhouette shadings beautifully soften and diffuse the light with their sheer facings and fabric vanes. This new design pairs a variety of trend-forward fabrics and a room-darkening roller shade. The back roller shade operates independently of the Silhouette shading and can be positioned to provide as much or as little light as desired. This innovative window treatment is ideal for entertainment hubs or media rooms, since they add the all-important style quotient and cut the glare on screens, while providing the option of full room-darkening. More information is available online at [www.hunterdouglas.ca](http://www.hunterdouglas.ca).

This beautiful Mattamy "Spirit Plan 2" had 3beds/2.5baths and sits on a 34'x88' lot in the Harrison neighbourhood. Open concept main floor showcases a chef's kitchen with island, beveled granite, undermount sink, stainless steel appliances, backsplash and upgraded cabinets with under-cabinet lighting. Separate family room and dining room make for easy entertaining. Upstairs you'll find 3 bedrooms and a convenient laundry room. Master has walk-in closet and 3 pc ensuite w/large shower. Basement with large windows and roughed-in bath awaits your finishing touches. This one will not disappoint!
