

Mobile photographs on display at Holcim Gallery

There's still time to catch the Mobile Photo Awards exhibit on display at the Milton Centre for the Arts.

The travelling show, which features 60 mobile photographs taken by artists from across the world, runs until Saturday in the Holcim Gallery.

Daniel Berman, founder of the Mobile Photo Awards, said the awards celebrate the beauty of the images, the medium of mobile photography, the artists who take the photographs

and the developers who create the mobile applications.

The exhibit features the best of the best, photographs taken by people who submitted their work online at www.mobilephotoawards.com and had the photograph judged by a panel of industry professionals.

The selected winners in different categories, which include black and white, children, landscapes, self-portraits and travel, had their work enlarged and put on display.

Berman said he believes mobile photography is no different than what some refer to as "real" photography.

"It's also a unique art form practised by millions," he wrote on the Mobile Photo Awards website, adding that it's a growing global ecosystem of artists and app developers, many of whom have created great images and apps. Holcim Gallery is open Tuesday to Thursday from 10 a.m. to 9 p.m. and on Friday and Saturday from 10 a.m. to 5 p.m.

Correction

An error occurred in a photo caption accompanying a story about The Nightcrawlers in last Thursday's *Champion*.

The photo was taken at the Milton District Hospital Auxiliary's annual Strawberry Fair stage at the Milton Fair Grounds last month.

The *Champion* regrets the error and any inconvenience it caused.
