

# Quick and natural kitchen updates

Welcome nature into your kitchen with these simple design tips from award-winning interior decorator Laura Stein:

1. Natural countertops like granite and quartz provide a sturdy and tough surface that can withstand messes. Place a large wooden butcher block cutting board on top of your center island to create an ideal culinary workspace.

2. Organic cotton or linen napkins and table runners are a great way to add colour and texture to your eating area. They can be changed with the season and help set the tone of the room.

3. Natural-based cleaning products can be

just as powerful on kitchen-surface grease as regular products. Vim PowerPro Naturals Kitchen cleaner with 95 per cent naturally-derived ingredients is perfect for cleaning your dirty kitchen surfaces.

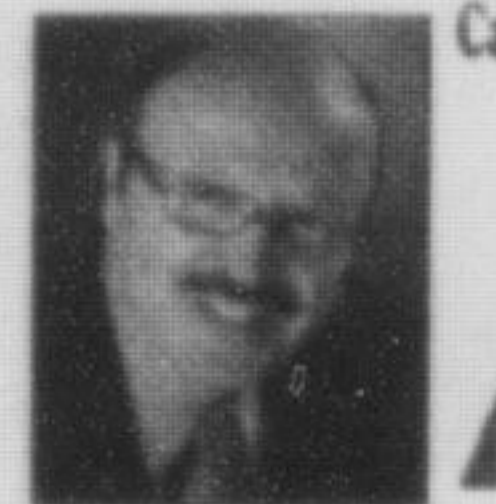

4. Liven up windowsills with miniature herb gardens to provide a fresh burst of colour and useful ingredients for your favourite dishes.
