

New educational opportunity

Audrey Verrette, 11, and Abigail Smith, 12, head toward the bus after their first day of school at École secondaire catholique Sainte-Trinité. After school that day, Réjean Sirois, director of education for the Conseil scolaire de district catholique Centre-Sud (CSDCCS), and school principal Claire Lapiere provided a guided tour of the facility and an opportunity to see students in their new environment. Sainte-Trinité translates to Holy Trinity in English. Sainte-Trinité has opened as a grades 7 to 9 school located at 2600 Grand Oak Trail in Oakville. CSDCCS operates schools in south-central and southwestern Ontario, providing education to more than 23,500 elementary and secondary students. For more information, visit www.csdccs.edu.on.ca.

Harvest Tea to aid historical society

The Nasagieweya Historical Society will hold the Harvest Tea Saturday, Oct. 5.

A fall fundraiser, it will include a special appearance by Norma Shephard with her Mobile Millinery Museum 'I Never Met a Hat I Didn't Like'.

The event will be held at Ebenezer United Church, 12274 Guelph Line (9 km north of Hwy. 401 between sideroads 20 and 25), at 2 p.m.

Known as the hat lady, Shephard is the founder and director of the traveling muse-

um whose working hats have raised funds for a variety of causes. She uses hats, shoes, and vintage garments as cultural story blocks to prompt the telling of tales, myths, and legends from audience members.

Guests of the Harvest Tea will be served all the tea they can drink, scones/biscuits, sandwiches and sweets. Tickets cost \$25 and are available at the Scotiabank in Campbellville or by calling (519) 837-9288 or emailing info@nasagiewyahistoricalociety.com or aallison000@gmail.com.

PUBLIC NOTICE

City of Guelph Water Supply Master Plan Update

Community Open House #1

The City of Guelph is updating its Council-approved **Water Supply Master Plan** to define how we will continue to access a sustainable supply of water—for residential and industrial use—over the next 25 years.

Reviewing our existing water supply system is an opportunity to discuss with the community how best to manage this vital supply so that we continue to provide the high level of service Guelph residents have come to expect.

Today, our existing water supply fulfills the city's commitment to provide a safe and reliable supply of water. Our updated Master Plan will provide short-term, mid-term and long-term water supply options to meet Guelph's predicted demand for water in the future.

Our review will follow the requirements of a Municipal Class Environmental Assessment (Class EA). When we are finished—after our Water Supply Master Plan Update is reviewed by the Guelph community and approved by Council—we will have identified constraints and opportunities related to our existing water supply system. We'll also have evaluated and prioritized a number of individual projects to either increase the capacity of our existing

system or to reduce our demand for water.

You're invited to attend

You're invited to attend the first Community Open House to learn more about the Water Supply Master Plan update. The Open House will run from 6–8:30 p.m. You're welcome to drop-in anytime during the open house. A short presentation and a question and answer session will run from 7–7:30 p.m. Project team members will be on-hand to discuss any questions or comments that you may have.

Thursday, October 10
6–8:30 p.m.

Council Chambers, City Hall
1 Carden Street

To find out more about the project, visit guelph.ca/water and follow the Water Supply Master Plan link, or contact:
