# CELEBRATING A CENTURY OF NEW HORIZONS

1913 2013

ENBRIDGE  
NATIONAL SPONSOR

### KENDRA WEBB

4-H Multi-Club Member  
Ontario

Enbridge is proud to celebrate 100 years of 4-H in Canada.

For over a century 4-H has been helping to bring out the best in Canadian youth. As a city girl, Kendra Webb wondered where she would find a place to pursue her agricultural interests. But after joining a 4-H dairy club she knew she'd found it. Not one to pass up an opportunity, this urban cowgirl has participated in over 40 clubs as a 4-H member. From vet-science to photography Kendra has learned new skills, made valuable friendships and broadened her horizons. She's still exploring her future but no matter what the destination, Kendra is glad that her journey began with 4-H.

At Enbridge, we understand that when we invest in organizations like 4-H, we're helping young Canadians realize their dreams and become the community leaders of tomorrow.

## NEWS

# Project FARMS results in charges

Halton police laid 20 charges under the Highway Traffic Act in a recent initiative to keep vehicles moving with and around farm equipment on roadways.

Police conducted Project Farmers And Road users Moving Safely (FARMS) between September 23 and October 4. Officers dedicated more than 15 hours strictly to the enforcement of FARMS during the two-week period.

Police say the charges include:

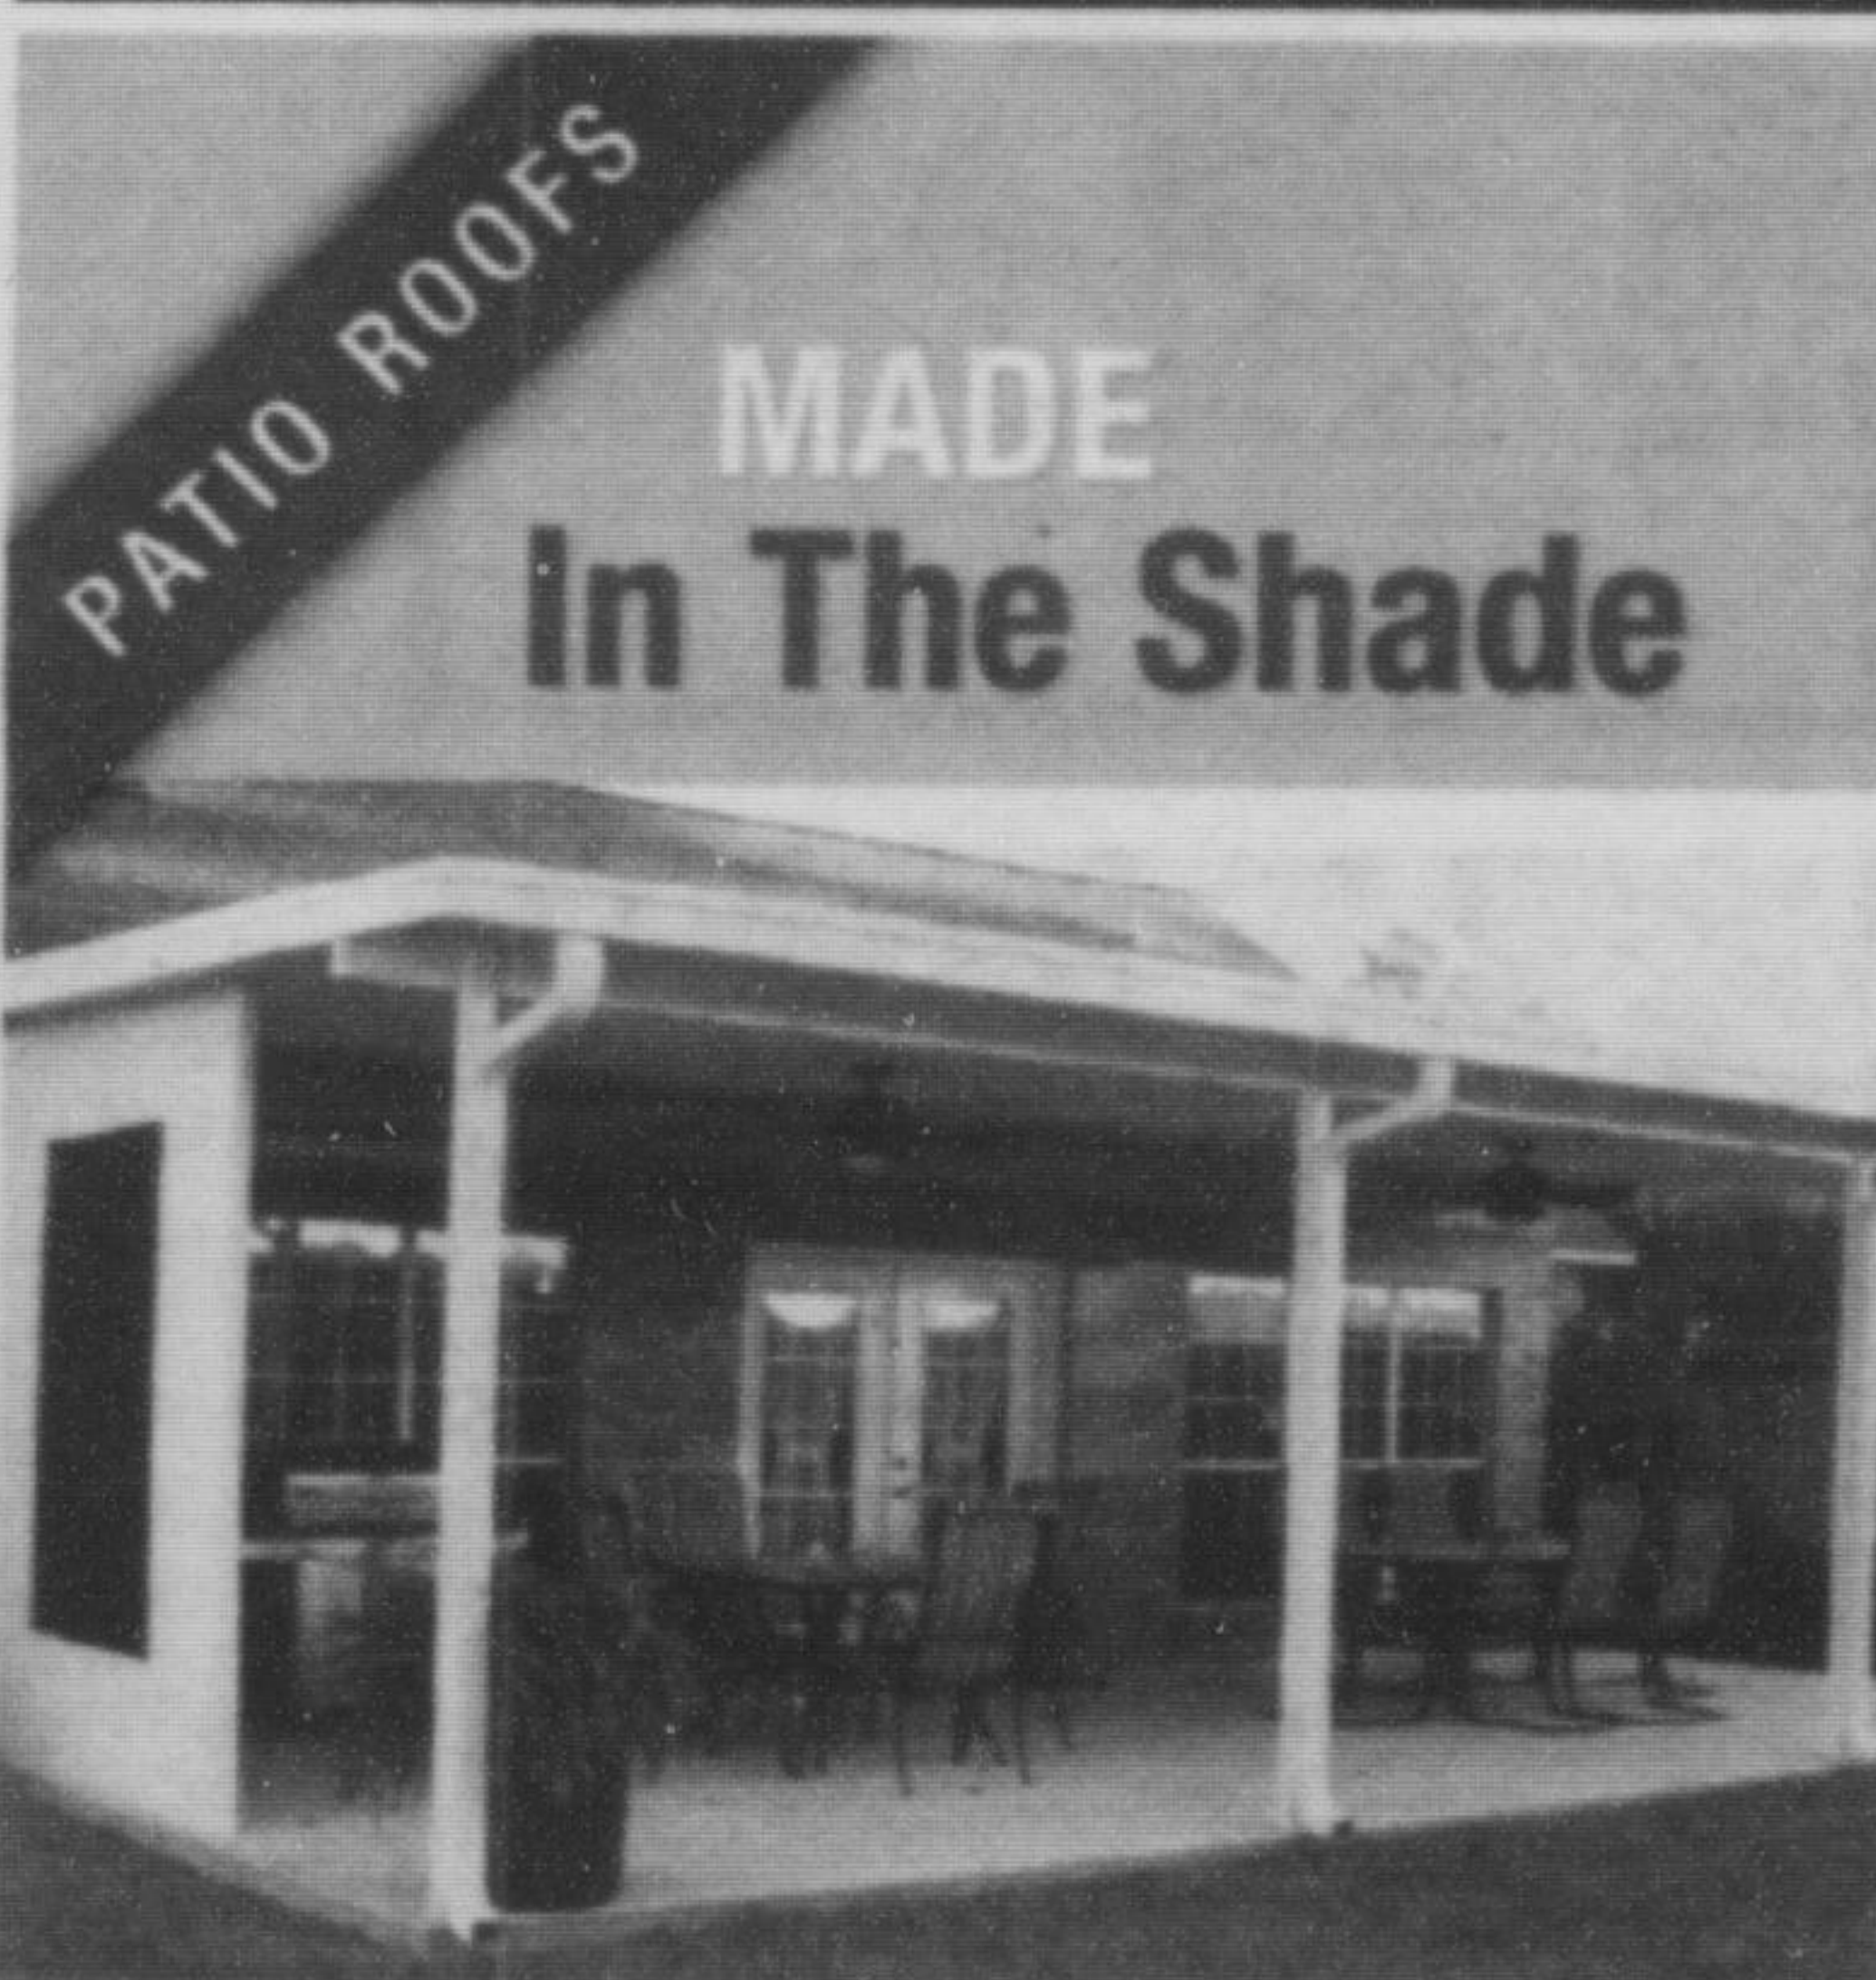

- a speeding charge for a vehicle overtaking farm equipment
- an unsafe movement charge
- six equipment charges (safety equipment violations concerning brakes, steering, suspension and tires) involving two separate commercial vehicles
- two equipment charges involving a farm vehicle
- 10 administrative charges (such as improper proof of insurance/updated licence stickers)

FARMS is a new project and it's anticipated that next year's project hours will increase.

Police say it will likely be activated again during the spring planting season of 2014.

During FARMS' launch in September, police reminded drivers to:

- Slow down when approaching farm equipment. Farm equipment is moving at slow speeds and the closing distance between your vehicle and the farm equipment can increase by five times
- Not assume that the farmer can see you
- Be patient. Farmers are only on the roadway for short distances.

### PATIO ROOFS:

- Reduce the sun's heat and protect from the rain
- Available in multiple styles and budget options
- Durable, lasting quality
