## Townhouse development proposed

An application has been made to build a townhouse development on vacant lands at the corner of Bronte Street South and McLaughlin Avenue, just south of Milton District Hospital.

Details of the proposed 92-unit townhouse survey were presented to town councillors last week for information.

The units are proposed to be divided into 14 blocks, with an internal road system running between them, and access roads to Bronte and McLaughlin.

A public consultation process is underway, with a final decision on the project to be made by councillors following the future presentation of a technical report and staff recommendation.

Details about the proposed development can be found in staff report PD-043-13, attached to the October 21 administration and planning committee agenda, available at [www.milton.ca](http://www.milton.ca).
