

The Canadian Environmental Assessment Agency (CEAA) is the government body responsible for the overall administration of the federal environmental assessment process.

Right now, it's reviewing the Milton Logistics Hub proposal.

Why?

Because we asked it to.

If the CEAA determines that an Environmental Assessment is required, then there will be one. You'll have many chances to have your say. It will — as always — be very rigorous, and the Milton Logistics Hub will implement each and every one of its recommendations.

No ifs, ands, or buts.
