

Pathway 2020: Halton Healthcare's vision for the future

Our MISSION

For the communities we serve, Halton Healthcare provides compassionate, quality, community hospital care as part of an integrated system.

Our VISION

Transforming the community hospital experience.
Exemplary patient experiences, always.

Our VALUES

As an organization, we collectively gravitate to three values that overarch our individual behaviours and attitudes.

Accountability • Respect • Compassion

Our STRATEGIC PRIORITIES

Our strategic priorities represent the areas where we will focus our time, talent and resources in pursuit of our mission and vision.

Empower • Collaborate • Innovate

It's an exciting time at Halton Healthcare. With our infrastructure projects well in hand at all three of our hospitals, we are now in the process of developing a comprehensive five-year strategic plan that will take us into the future. This strategic plan, **Pathway 2020**, will guide us on our journey of leveraging our facilities, technology and equipment and enhance our focus on exemplary patient and family experiences.

This spring, following a comprehensive consultation process, Halton Healthcare introduced its new mission, vision and values statements and identified its key strategic priorities. These elements provide the foundation upon which we can further develop our strategic plan.

"We are so thankful to everyone who participated in shaping the future of our hospitals," said Denise Hardenne, President and CEO, Halton Healthcare. "Our transformation as a healthcare organization continues, driven by a powerful commitment to exemplary care, the strengths of the almost 4,900 people who work and volunteer with us and the solid support of our three foundations. I am proud of what we have accomplished together."

Pathway 2020, which will be launched in early 2016, will identify our key objectives, initiatives and include a comprehensive action plan. To follow the development of Halton Healthcare's Strategic Plan and stay informed on hospital projects, please visit www.haltonhealthcare.com.

Transforming Healthcare! Our 2014/15 Annual Report

We've come a long way since Dr. Stevenson converted his house into Milton's first hospital, the original Oakville Trafalgar Memorial Hospital opened its doors and Ron Marchand became the first baby born at the then new Georgetown Hospital. And the journey continues! Read more about the past year's accomplishments at Halton Healthcare, our new spaces and technologies, our patient care stories as well as our plans for the future in the current annual report.
