Roadwork projects underway

A number of road closures are slated to facilitate a variety of infrastructure upgrades throughout the community. Motorists can expect delays along Lawson Road, as construction crews work to rehabilitate the stretch of road between Esquesine Line and Boston Church Road.

The roadwork, which was set to begin July 17, is expected to wrap up August 21. The scope of work includes base and top asphalt works, line painting and shoulder work.

To accommodate the necessary upgrades, lane closures may be implemented. In an attempt to mitigate the disruption to traffic, weekend or night work may be scheduled, according to the Town of Milton.

Access to all properties will be maintained throughout the duration of the project. However, parking along the affected stretch of Lawson Road is prohibited.

Lane closures are also expected on Nipissing Road, between Childs Drive and Thompson Road, until August 21, as Graham Bros. Construction completes road restoration work. In addition, parking on both sides of Nipissing Road, between Thompson Road and Childs Drive, will be prohibited until the project is complete.

Another roadwork project will impact motorists and pedestrians. Wakefield Road, west of Ontario Street, will be temporarily closed to accommodate road reconstruction work beginning at 7 a.m. on July 27 and wrapping up at 5 p.m. on October 21. Despite the temporary closure, local traffic will be permitted along Wakefield Road.

Starting on August 4, Halton Region will begin work on a watermain construction project, which will impact those who travel along a portion of Main Street.

Main Street, about 135 metres east of James Snow Parkway to Fifth Line, will be closed to motorists until October 16. Access to local businesses and residential properties, however, will be maintained.

The Region has identified Derry Road, James Snow Parkway, Steeles Avenue and Sixth Line as the preferred detour route.
