Incorporate flowers in various ways

Weddings are special moments for couples and the guests they invite to share their happiness on their big days. Beautiful weddings require substantial planning, as every last detail must be considered for couples to enjoy the wedding of their dreams.

Flowers play a big role in many weddings, and couples can add beauty and ambiance to the event by using floral arrangements in various ways. Modern floral arrangements are stunning, and many couples may not know that herbs, spices and flowers have been used in weddings for centuries.

would be responsible for fashioning these floral components. In ancient Sweden, young girls would carry small bouquets of fragrant herbs down the aisle and the groom would put thyme in his pocket. These aromatics were thought to help keep trolls at bay.

Modern brides and grooms may no longer see their wedding days as times for opportunistic evil spirits. But that doesn't mean that couples cannot borrow from ancient traditions and incorporate flowers into their weddings in various ways.
