DISCOVERY STARTS HERE.
WEB OF KNOWLEDGE℠

Welcome to this year's OLA conference.

We understand that people turn to you for new ideas, better strategies and, practical solutions for their research needs. Thomson Reuters resources allow you and your researchers to find and pursue the most relevant research and make confident decisions based on accurate, objective information and sound metrics.

Web of Knowledge℠ brings unique, in-depth evaluation tools to the world's leading citation databases, including *Web of Science*℠ and the newly launched *Book Citation Index*℠, allowing you to search, evaluate, and share critical information from across the research landscape. With *Endnote® Web,* your users can streamline their workflow with integrated searching, writing, and bibliography creation.
