

1

Does circulation have you puzzled?

2 Let 3M help the pieces fall into place.

Circulation is the busiest area of your library, yet budget decisions may not provide you a means to cope. 3M Library Systems/Materials Flow Management offers on-site consulting, product solutions and technical assistance to improve circulation and budget efficiency. Whether by introducing alternative library security accessories and ergonomic work aids, combining multiple functions into a single workstation, providing patron self-service circulation or sharing solutions implemented at other libraries, 3M Library Systems can help you cope with today's cutbacks and plan for tomorrow's growth. Emerging from our tradition of 3M "Tattle-Tape" Security, the philosophy of Materials Flow Management is one more example of our unique corporate spirit - focus on customers, dedicated teamwork and freedom to take risks - that enables us to make the leap *from need to...*

3M *Innovation*
