## **THE VATICAN LIBRARY DIGITAL PROJECT**

Fabio Schiattarella has worked hand-and-glove with the ill Vatican Librarian, Father Leonard Boyle. He turns Father Boyle's ideas into reality, bringing the world wide expertise of IBM into the hallowed halls of one of the world's greatest institutions. Fabio has studied in Rome, Atlanta and Naples on the way to one of the great projects of the world. The application of his specialized knowledge in digital image processing for this and other European projects networking, libraries and cultural heritage have made him a widely praised spokesperson in meetings in Europe and most recently at IFLA (the International Federation of Library Associations) in Istanbul this past summer. A RECEPTION IN THE THEATRE FOYER FOLLOWS THIS MAJOR EVENT.

## **RICHARD LEE**

Richard may be the funniest librarian on the continent. His cartoons illustrate Manley's World every month in *American Libraries* and have amused readers in a number of the Manley collections. Richard will use his cartoons and sketches during this event to entertain and amaze you. His humorous view of the profession, your clients and himself combine with his natural ability to entertain in this bold new ending to another outstanding Super Conference. His numerous books are available in the store during the conference.

*Tickets still available: \$15 each*
