Visit us at booth 710-714

## Connecting you to Canada and the world...

Micromedia ProQuest delivers well managed Canadian reference information for the academic, corporate, library and K-12 markets. Offering a wide range of information via the Web, print and microform, our diverse products and services cover business and finance, education, government, general reference, history and politics, literature, social sciences and technology.

- General Reference** >> Canada's most extensive online collection of current and historical newspaper and periodical content >> facts, figures and a broad range of indexed Canadian contact information
- Corporate and Financial** >> detailed information on Canadian public, (select) private and Crown corporations >> quick document delivery services to fulfill research and monitoring needs
- Government** >> key source for research, reports and contacts across all major Canadian jurisdictions
- Education** >> complete variety of reference and literacy resources, designed for K-12 through to academic markets >> products offering research and professional development within the education sector

From current and historical Canadian newspapers to corporate and government documents, we bring it all to you!
