BEYOND "EMBEDDED" — INFO PROS IN THE BUSINESS

Shaunna Mireau, Field Law; **Wendy Reynolds**, Ontario Legislature
Special libraries have been embedding reference librarians in operational teams to great effect. What happens when they are deployed to lead, rather than support, operational programs? In this talk, you will hear from two information professionals who have gone beyond embedded and are now leading significant operational initiatives in their respective organisations. What experience, skills and attitudes have they used in transitioning to these new challenges? How did their respective careers prepare them to move out of the library and into the business?

Convenor: *Kay Samuels, WeirFoulds LLP*

THE CHANGING LANDSCAPE OF CITATION MANAGEMENT TOOLS: YORK UNIVERSITY FACULTY & STUDENTS SURVEY RESULTS

Rajiv Nariani, York University

Do our science faculty and graduate students use citation management tools? What features do they use most often? An online survey helped librarians promote the important features in freely available citation management tools. It has helped in understanding their needs and strengthening relations with our faculty and students.
