

# MEET THE PLANNERS

Every year, the program for the OLA Super Conference is pulled together by a super dedicated team of volunteer conference planners. These individuals meet monthly starting in March — a full eleven months before the conference.

They represent libraries and staff from all sectors, and work together to come up with everything from the conference theme, to the keynote speakers, to the full program of over 250 education sessions. This team of planners works to ensure that the program fully reflects the issues and innovations that push our profession forward. They're constantly looking for ways to improve your Super Conference experience!
