THE GADGET ZONE

The Evolve Project is a collaborative platform that works with libraries around the world. We believe that libraries should be creating stories rather than just providing them.

We help libraries create maker spaces and fablabs along with the coaching and guidance to take their environments to the next level. Libraries are community anchors and they should be positioned to provide the resources and connections to allow patrons to build innovative works, discover new things, and interact with others. By partnering with start-ups that have interactive and engaging technologies and integrating those products into library environments; we start building towards a better tomorrow with our communities.

ONTARIO BOOK PUBLISHERS PAVILION

30 Ontario-based Canadian-owned publishers can be found at the Ontario Book Publishers Pavilion this year! Make sure to come by frequently to meet the dozens of authors who will be giving away and signing books throughout the conference.

THE STYLE LOUNGE

The Style Lounge is back with a head shot photographer in residence during EXPO hours who will be taking people on a first-come first-served basis. Or get your hair and make up done with hair and makeup artists.
