## Notice of Release of the Minister's Annual Report on Drinking Water 2014

On December 22, 2014, Ontario Minister of the Environment and Climate Change, Glen Murray, released his 2014 Annual Report on Drinking Water. The report highlights the ministry's ongoing efforts to better understand the effects of climate change on our water resources, as well as its continued work to help ensure our children, our grandchildren and future generations have access to clean, safe drinking water.

The report also provides updates on the ministry's work to:

- protect sources of drinking water, including the Great Lakes;
- support drinking water for First Nations;
- and protect Ontario's drinking water with our safety net.

To learn more, check out [the Minister's Annual Report on Drinking Water 2014](#). You can find out more about the work being done by ministry staff, and the ongoing success of its programs, by visiting [the Ministry of the Environment and Climate Change's drinking water page](#).
