DIGITIZING YOUR COMMUNITY'S HISTORY

The Innovative Librarian's Guide

by Alex Hoffman

Digitizing Your Community's History: The Innovative Librarian's Guide provides you with step-by-step directions for launching a DIY digitization program for personal and community historical materials. It covers the process of setting up a digitization program, training customers to use the equipment, best practices for storing digitized material, and tips for engaging the community in local history, such as ideas for exhibiting materials and programs for genealogy and family history. Just as importantly, the author addresses how to explain the benefits of programs like these to library stakeholders and supplies recommendations on sustaining library community history programs through access and engagement.
