RE THE ONLY INSTRUMENTS  
constructed on a truly Scientific Principle.  
They have greater strength, and will re-  
main longer than any other Piano.

parts are easily accessible, and the tone is  
dispensed with; the sound board is  
made of two arched planks of thin wood, like  
back and back of a violin; the strings are  
tuned by a screw from within, which is sepa-  
rately controlled; Local and Foreign Markets, and  
will be a most valuable instrument for Farmers and  
others residing in the country.

THE Weekly will contain a large amount of  
Information respecting the Affairs of the Country, which is  
designed to be free from党派, which is sepa-  
rately independent of the case, thereby  
leaving with the old and established parties  
nothing but straight bridges, presenting at  
the same time the Over String Bass, of which  
Dumas is the Inventor. By these im-  
plements we gain much more vibratory  
power, the same time preserving all its  
natural tones; and they have received the highest testimonials  
from the Press, and all the principal writers  
in the country, among which is

L. M. Gottschalk,  
H. Threlkell,  
Mrs. Hayes,  
J. H. Marshall,  
H. B. Scott,  
Henry Roy,  
Chris. Freder.

Mr. SEGERMUND THALLERG, the great  
say—I have examined your new Piano-  
Fortes, and I cordially approve of its system  
of construction. Its principle, by which great  
amount of vibratory power is obtained, being  
a simple and really philosophical, the  
attaining the sound for striking the great capacity  
of tone or power I have never heard  
lived in depth, purity, and sympathetic

sound.
