It is almost enough to break down confide nee in human nature to observe how the Jamaica FIRE AND LIFE! rebellion is treated in England. A sharp controversy is going on, in which each party con. demns or approves the course adopted by the local authorities in suppressing disorder, taking ground precisely in accordance with its preconceived notions in respect- to the treatment of negro questions generally. Knowing the views of a journalist in regard to the question of American slavery, for instance, you already know what he will say about Jamaica. And this was true at the moment of the first announcement in England of the Jamaica slaughter, before sufficient details were received on which to base an intelligent opinion: It would seem as though there was something magical in the dark color of the African's skin, In 100,000 Shures of £20 Sterling so that the mere presentation of this subject brings to the mental preceptions in many cases, darkness, and bewildermeht. Whatever thefact may be, Gov. Eyre, who directed the colonial authorities in the execution of severe measures instantly, upon the outbreak at Lorant Bay being

announced, is just now one of the best abused men in England, as well as one most highly extolled-and this notwithstanding the wide renown enjoyed by the governor, on account of courageous physical exploits in Australian remarks as follows :-

surrection, the negroes would certainly have responded to the appeal of Gordon and his ac-around you'like fire; meet it with resolution, Stock Insured. Losses by Lightning made and you may trample it down at once. We good. nothing that exceeds the wise and necessary rigor of repression."

time for us to help ourselves-skin for skin. to select, " The iron bar is now broken in the parish. The white people send a proclamation to the Governor-to make war against us, which we all must put our shoulders to the wheel and pull together. The maroons sent the proclamation to meet them at Hayfield at once without delay that they will put us in the way how to act .-Every one of you must leave your house, take your guns; who don't have guns take cutlasses down at once. Come over the Stony Gut that we might march overto meet the Maroons at once without delay. Blow your shell, sound your drums, house to house, take out every man, march them down with their arms. War is at my black skin. War is at hand, from today till to-morrow. Every black man must turn out at once, for the oppression is so great. The white people are now cleaning out their guns for us, which we must prepare to meet them too. Cheer men-cheer in heart ; weare QUEEN INSURANCE ... BUILDINGS looking for you a part of the night, or be-fore We are truly yours,

PAUL BOGLE, J. G. MCLEAN; B. CLARK. P. CAMBRON. Get as a bearer to send us an answer to this, for they are determined to make us slaves again. When you do come to Stony Gut or Hayfield, blow your shells and tell what place you are from before entering. E. B. BAILEY.

Shooting at sight is the order the day in Mexico. A correspondent of the New York Heratel says that during his short stay in Matamoras twenty-five men were shot down with scarcely the form of a trial for alleged opposition to imperial authority. Extermination is the avowed policy of the Empire toward those who incline to the Liberal cause, and active retalliation is the consequence.

The Mormons have just received a batch of recruits from Denmark. A Salt Lake paper says :- There isn't one of them apparently, who might not as easily have been persuaded to emigrate to heathen lands where heathenism prevails, as to the Mormon heritage; prowided the same misrepresentations had been made to them by their proselyters. The arrival of these fair-haired girls from Faherland created considerable commotion among the A lot of old fogies, who had already six or seven forlorn wives, were seen examining the new cotners, most likely with the object of selecting one in order to save her

When Napoleon was living in the Elysee, it was not so very long back that Queen Vietoria had said one evening at the opera to a Prince of her acquaintance, "Veux tu voir les LIFE POLICIES GRANTED ON A SPEcette loge." In the box to which the Queen called her consin's attention was the expelled Duke of Brunswick and Louis Napoleon, who, in those days, were intimate friends. Napoleon III. certainly had no idea of the flattering title which Victoria once gave him. Did she remember " fe plus grand coquin du monde" when facing the Emperor at Cherbourg? He does not know, either, that the Queen fell into a hysterical fit after he had dared to kiss her cheek upon her reception at Cherbourg. except, perhaps, the Duke of Modena, hates Napoleon so deeply as our Queen .- Napoleon III. and his Court, by a setired Diplomatist.

The London Morning Postgives the wedding of Earl Dudley to Miss Monerieffe :- "The bride wore a rich dress, with a tanic, bodice and veil of valuable French lace. It was originally intended for the Empress Eugenie, and was valued at upwards of £2,000. She also were a handsome bracelet of pearls and diamends, a wedding present from the inhabipearls (of five rows,) the gift of her noble for the purpose of giving fessons to all persons just before setting out for the altar, who may feel disposed to favor him with their The presents were very costly, and all the the principal and most unique in the whole by his ingenious process which unites ele collection being a matchlest parure, consisting of a disalem, necklace, brooch, ear-rings and bracelets, composed of rubies and diamonds of the facest quality—the subies specimen stones for general business and correspondence. set in pure classical style and most elegeant The value was, nearly £10,000. SINGER'S Sewing Machines.

COME OF THE SEWING MACHINE

Companies seem to be particularly active in trying to get the public to believe that they are the most successful in obtaining premiums at the different State and County Fairs in the United States, and also at the Agricultural Exhibitions in the British Provinces. In the beginning of our career, we also were careful to exhibit our Machines at the principal Fairs, but after having received the Gold Medal of the American Institute, for two successive years, and many other valuable prizes at most of the important exhibitions in this country, as well as the Gold Medal of the "Universelle Exposition," at Paris, in 1855, and so forthmore than all, when the public at large admitted that our Manufacturing Machines were great advantage to be derived by continuing hold responsible situations. ment use our Machines extensively in the Guarantes, the premiums are considerably manufacture of clothing for their army, and recently the British Government purchased nachines largely for a similar purpose. The extent to which they are used in the making of clothes for the United States forces is too well known to need comment. As the Family Machine embodies the most important principle of the Manufacturing Machines, the day has arrived when it is as noted for family use and as indispensable, as the Manufacturing Machines are for manufacturing purposes, received the first premium at the New York State Fair, over all competitors this season, as did also the Manufacturing Machine, and they now invariably receive First prizes wherever exhibited, but we seldom exhibit and other makers can of course boast of First

The universal favor with which the Machines have been received is evinced by the large and increasing sales, and attested by the fact that, of all who possess them, we have yet to learn of one who is not pleased with their work and operation.

READ THE FOLLOWING BE HIGHLY COMPLEMENTARY TESTI-

inform you that the Singer Family Sewing Machine, which I purchased from you in May, 1863, works perfectly, and I am highly pleased with it. Should any of my friends require one, I shall have great pleasure in recommending them to purchase a Singer Machine. MRS. JOHN LESLIE. 7.15 Mr. W. G. PIANO FORTES

DRIGGS' NEW PATENT

RE THE ONLY INSTRUMENTS I constructed on a truly Scientific Principle. They have greater strength, and will remain longer in Tuns than any other Piano: The construction is simple and natural, all the extraneous lumber in the body of the instrument is despensed with; the sound boards are merely two arched planks of thin wood, like the front and back of a violin ; the strings are attached to a strong Iron frame, which is separated and entirely independent of the case, thereby All the Directors are fully qualified Share- dispensing with the old harp form of stringing, by substituting straight bridges, preserving at the same time the Over Strung Bass, of which Mr. Daiggs is the Inventor, By these improvements we gain much more vibratory

> They have received the highest testimonials Harry Nanderson, L.M. Gottschull. .Max .Warrisch. S. Thalberg. Throdore Bisheld, Win. . Mason,

purity and righness of tone.

Herman Wollenhaupt, J. Barili, rancis H. Brown, M. Mrackosch. W'm. Henry Fry. Chas, Fradel, MR. SEGESMUND THALBERG, the great pianist, says .- I have examined your new Piano-Fortes, and I cordially approve of its system of construction. Its principal, by Which great increase of viliratory power is obtained, being very simple and perfectly philosophical. The tone is rand and noble; it has great capacity for sustaining the sound for singing, and its volume of tone or power 1 have never heard excelled in depth, purity, and sympathetic,

WM: HENRY FRY, late musical critic of the N. Y. Tribune says :- I have examined your newly invented Fiano-Fortes. Terry merit ail the praise given to them by Messrs. Thalberg Gottschalk, Strackosch, Mason and others As regards structure, they are orginal and philosophical; in purity, volume, and continuity of tone; in vocal versimilitude, that crowing excelence which enables the pianists to "sing" on the instrument. Your Pianos ever descrive the highest rank. Your invention, in now been before the Public for a length of my opinion, is destined to work radical changes

> From the N. Y. Herald, Sept. 5 .- Upon a careful examination of Dang's Piano-Forte, we find the results obtained are a very fine singing tone, great purity and briliancy throughout the entire instrument, not often found in Pianos constructed upon the old plan. The N. Y. Times, July 12, says - We have now an instrument without an equal. It can sing with a smooth delicacy, perfectly unattainable on any other instrument; an ordinary player obtains with no exertion; the fullness of

a Grand Piano-Forte, and they must speedily supersede the old styles. GENTLEMEN :- Having thoroughly examined success in subduing the torturing pains of and tested the Piano-Fortes invented and patented by Mr. S. B. Dancos, I am of the opinion as exhibited in the instruments under exant. nation, in point of richness, depth and brillianthe country for further supplies, and each testi- cy, equals that of the best Grand Piano-Fortes, and excels them in pure, musical intonation The Canadian Pain Destroyer never fails to and actual tone, power thus approximating

operate, but the want of the reversed or kx-HAUSTED BELLOWS, (which is the only bellows used in our instruments,) made it impossible for them to produce the mellow, rich and musical tone for which our instruments are Another objection to this method of blowing was, that both feet being occupied, no opportunity was offered for the management of the swell. Within the past two years, instruments constructed on this European plan of "double. blowers," have been manufactured in this country, and to counteract this difficulty (want of a swell) a lever has been projected from the

centre of the instrument, to act upon the swell AND OPERATED BY THE ENER. The inconvenience and contortion incessary to effect this object. are disagreeable enough to a gentleman, but tob, a lady the use of such an appendage is nearly Our AUTOMATIC device obviates this difficulty entirely, the simple act of blowing with more or less force giving the desired increase or For seventeen years the superior excellence

of our Melodeons has not been questioned, and for two years past the enormous demand has made it impossible for us to meet our orders promptly. With our increased facilities, we feel warranted in assuring our patrons that their orders will be promptly met, and solicit a continuance of their patronage.
