OTTAWA, JANUARY 20, 1866.

Our English advices state that the Lollowing gold vessels are now on their way to Great Britain-the Cornwallis, already announced, from Sydney, with gold valued at £61,408; the Great Britain, from Melbourne, already announced, with £498,224; and the Kent, which sailed on September 30th, with £275,-936, making a total of £835,568. This amount represents only the gold which is in ously applied in the present case. transitu; whilst, weekly, other ships bading at the Australian ports have each their several shipments of preciens metal. Of California gold England gets no small proportion directly and indirectly through the several channels of commercial dealings. It is a puzzle-what becomes of this large supply of the great metallic basis of the current money of the world. When the mines of California first began to pour forth their riches, and werethe only new sources from which gold was obtained the limited quantities there produced alarmed the money dectors, and fears were entertained that gold would so flood the commercial world as to totally unfit if for the purpose of a standard of value; its abundance tity, as he prefers the "nimble sixpence to the, for the current year, met at the Town Hall in and consequent cheapness was actually a slow shilling. cause of anxiety.
