The paragraph we have quoted remind one of a begging sermon. The doctrine closely followed by an exhortation to give liberally of their means. The time has scarcely yet passed when the American people talked loudly and unjustly of the insincerity of intemperance. our neutrality. This we can conscientiously deny. Doubtless our people did more or less to sympathise with the South, just in that measure or mode in which the generous alpublicans or monarchists; and if the latter overhead, which will expose the floor or the Toronto correspondent of the Herald. tion proclivities it could not be from any hatred of their institutions that generosity which never had any practical man- burn the gentleman conducting operations.

they have to tarry long for the fulfilment of

all that we herein foreshadow."

INTERESTING TO THE LADIES .- " Another new family sewing-machine! Well! I declare; wonders will never cease!" exclaimed one of our intelligent lady friends, as she examined some surprisingly beautiful, delicate handiwork of a new family sewing-machine, just perfected, after years of experiment and effort by "The Singer Manufacturing Company," successors of I. M. Singer & Co. This new candidate for admission and favor in the thousand of homes yet unsupplied with the sewing-machine, is one of the most simple, tasteful, elegant and beautiful bits of mechanism that we have ever seen, and it performs its work so noiselessly, delicately, swiftly and unerringly, that it is difficult to conceive of NO ABATEMENT OF THE CHOEERA on a lot of secundrels who are openly drilling anything more perfect. Its stitch is the and arming for the acknowledged purpose of famous lock-stich, and has the appearance of invading our country, murdering its inhabi- fine seed-pearls selected with the most martants and destroying our national liberties. new machine has not been brought out before-We can understand that the Fenians are for the public, or exhibited heretofore, and is now the market for sale. The first lot of four masses of every emcite. The many, no hundred machines, will be completed during doubt, are sincere in their belief of the the present week. This machine will undoubtedly create a de-

righteousness of their cause, whilst their cided impression, and take its place at once in the front rank of family sewing-machines, i is, however, of little importance of what in not the very first place, for all kinds of family gredients the Fenian organization is com- sewing, as it is fitted out with the most ingenions, novel, and effective devices for hemming, ording, binding, tucking, gathering, felling, and an entirely nevel device for braiding the ports to invade the Province for the acquisi- most beautiful forms upon all sorts of garments for ladies and children .- Art Journal.
