RE THE ONLY INSTRUMENTS A constructed on a truly Scientific Princip ple. They have greater strength, and will re-The construction is simple and natural all the extraneous lumber in the body of the instra ment is despensed with; the sound boards are merely two arched planks of thin wood, like the front and back of a violin ; the strings are attached to a strong Iron frame, which is separated and entirely independent of the case, thereby dispensing with the old harp form of stringing by substituting straight bridges, preserving at the same time the Over Strung Bass, of which Driggs is the Inventor. By these inprovements we gain much more vibratery power, at the same time preserving all its

The Automatic Organ. In presenting the AUTOMATIC ORGAN, past half century, the French and Germans have manufactured reed instruments with Relieve Cough, Colds, Sore Throat, Hoarseness | double bellows, and two peda's for the feet to operate, but the want of the reversed or Evused in our instruments,) made it impossible for them to produce the mellow, rich and musical tone for which our instruments are

Another objection to this method of blowing was, that both feet being occupied, no oppo tunity was offered for the management of the swell. Within the past two years, instruments constructed on this European plan of "double blowers," have been manufactured in this country, and to counteract this difficulty (want centre of the instrument, to act upon the swell, AND OPERATED BY THE KNEE.
