DESIGN ... TO EDUCATE YOUNG MEN FOR BUSINESS.

The Thriving Condition of this City, and its important Position as the New Seat Government, must render it of the Utmost Consequence to the YOUNG MEN of the District to be supplied with the

Means of obtaining a Sound, Practical Business Education.

IN MAKING THIS ANNOUNCEMENT WE WOULD ADD THE ASSURANCE THAT no pains shall be spared on our part to afford every convenience and comfort to those who may be placed under our care, and also the most unremitting attention to forward them in all their studies. With hese views we shall constantly keep an ample staff of Teachers, so that every student may receive that individual attention which the nature of the course necessarily requires. In the selection of instructors, we shall, as is our habit, be guided not by competency alone, but shall seek out such men as we can con-

We are now in a position to point to results both in regard to the gratifying support accorded to our Institutions, in Toronto and Hamilton, and also by the high terms in which employers uniformly speak Postponed until further Notice. of young men who have graduated at the British American College, Another encouraging result is found in the number of applications constantly made to us to recommend Book-keepers who have passed through our extensive course. We, therefore, have no hesitation in pledg-

ing ourselves to carry out in this city a system which has so emphatically received the stamp of public approbation, both in Toronto and Hamilton, and we may add throughout the Province.

Out of the many flattering letters which we have received from time to time, we may select the two fol-[From J. G. Worts, Esq., of the firm of Gooderham & Worts, President of the Board of Trade, Toronto.] Torosto, December 19, 1865.

DEAR SIRS,-I cannot express too strongly my appreciation of your efforts to establish a model hor of business. Your system supplies a most important desideratum in the education of youth. It has often surprised me that the community at large seems blind to the utility of such training as your valuable, or rather invaluable, institution affords. I have asked how it is that a man professing to be a physican will not be employed, and will even be stigmatised as a "quack," except he has gone through a regular course of anatomy, physiology, and so forth, and has also attended an hospital and clinical lectures; and the same may be said of the lawyer; and yet a youth is taken into a counting-house or store, wholly ignorant of the duties he undertakes, and having everything to learn. I consider, therefore, that such a Wax Tapers; Wax Bougies; Boxes and Stands for the time and labor of teaching every new hand, and the latter the waste of time involved in a long apprenticeship. Your admirable system of real business is a complete remedy for this defect, and I consider that your great success in this department is made clearly manifest by the air of reality that your stu engagements, imaginary though they be. I can testify to the excellence of your system from personal experience, having at the present time, in the employment of the firm I belong to, three young men who were educated at your establishment. dents display in their model transactions, and by their downheartedness when they fail to meet their
