This attachment can be attached to my Wheeler & Wilson Machine in use, and all are nvited to call and see it in operation. Wheeler & Wilson's Sewing Machines have always been noted for performing a greater variety and range of work, and better than any other Machine, as has been acorded them again and again at all the great Exhi-oitions, wherever exhibited; but this last simple and ingenious device enables them to perform double the range of even their former great capacity. The emand for these Machines are so great throughout | stitute. the world that nearly one-third more are made and sold than that of any other make. Over 1400 a week are turned out of their factory, and yet they ere far in arrear of their orders. Resolutions are now passed by the company for the building of an-ther factory nearly as large as their present larg-ist factory in the world. They will then be better able to supply the great and growing demand of

Worts, Esq., of the firm of Gooderham & Worts, President of the Board of Trade, Toronto.] TOBONTO, December 19, 1865. MESSES, MUSGROVE & WRIGHT, DEAR SIRS,—I cannot express too strongly my appreciation of your efforts to establish a model house of business. Your system supplies a most important desideratum in the education of youth. It has often Apply at surprised me that the community at large seems blind to the utility of such training as your valuable, or rather invaluable, institution affords. I have asked how it is that a man professing to be a physican will not be employed, and will even be stigmatised as a "quack," except he has gone through a regular course of anatomy, physiology, and so forth, and has also attended an hospital and clinical lectures; and the same may be said of the lawyer; and yet a youth is taken into a counting-house or store, wholly ignorant of the duties he undertakes, and having everything to learn. I consider, therefore, that such a system as yours is of the greatest importance both to the employer and employed, as it saves the former the time and labor of teaching every new hand, and the latter the waste of time involved in a long apprenticeship. Your admirable system of real business is a complete remedy for this defect, and I consider that your great success in this department is made clearly manifest by the air of reality that your stu dents display in their model transactions, and by their downheartedness when they fail to meet their

engagements, imaginary though they be. I can testify to the excellence of your system from personal experience, having at the present time, in the employment of the firm I belong to, three young men who were educated at your establishment. I remain, dear Sirs, yours, &c.,

[From Patrick Hughes, Esq., of the Firm of Hughes, Brothers, Toronto.]
TORONTO, 23rd December, 1865. MESSES. MUSGEOVE & WRIGHT, GENTLEMEN,-I have much pleasure in bearing testimony to the excellent system pursued in your College, from a personal inspection of the working of the establishment, and having in my employment young men wno have been educated by you. I have to express my entire satisfaction with the method and arrangements you have adopted, and the zeal and assiduity with which you carry them out.
