STITCH, as made by the Grover & Baker;
The THREE THREAD STITCH, a combination Making the most beautiful Embroidering Stitch yet invented ! THIS IS ALSO THE STRONGEST STITCH in the world, whether made by hand or machine. This attachment can be attached to any Wheeler & Wilson Machine in use, and all are invited to call and see it in operation. Wheeler & Wilson's Sewing Machines have always been noted for performing a greater variety and range of work, and better than any other Machine, as has been acaddress, enclosing stamps, corded them again and again at all the great Exhi-bitions, wherever exhibited; but this last simple and ingenious device enables them to perform double the range of even their former great capacity. The demand for these Machines are so great throughout the world that nearly one-third more are made and Ottawa sold than that of any other make. Over 1400 a week are turned out of their factory, and yet they are far in arrear of their orders. Resolutions are now passed by the company for the building of another factory nearly as large as their present largest factory in the world. They will then be better able to supply the great and growing demand of these machines.

By referring to the Numbers stamped our Machines, it will be seen that we are nearly 60,000 necessary to allude to this fact, as nearly every body admits, as well as the different Sewing Machine Companies themselves, that WHEELER & WILSON'S has a greater sale than any other; not 20 year's manufacturing either, no not over 15.

How We Shall Proceed.

We have adopted the plan of sale now so popular of charging a uniform price, and this price will be \$2 for each article, regardless of value. The expenses of conducting our Agency are paid by the sale of certificates, or courses, representing the variations, in Toronto and Hamilton, and also by the high terms in which employers uniformity speak of young men who have graduated at the British American College.

Another encouraging result is found in the number of applications constantly made to us to recommend Book-keepers who have passed through our extensive course. We, therefore, have no hesitation in pledging ourselves to carry out in this city a system which has so emphatically received the stamp of public approbation, both in Toronto and Hamilton, and we may add throughout the Province.

Out of the many flattering letters which we have received from time to time, we may select the two following the variations. sale of certificates, or coupons, representing the various articles. These certificates are sold at FIFTY

MESSES. MUSGROVE & WRIGHT, DEAR SIRS,—I cannot express too strongly my appreciation of your efforts to establish a model house of business. Your system supplies a most important desideratum in the education of youth. It has often of business. Your system supplies a most important desideratum in the education of youth. It has often surprised me that the community at large seems blind to the utility of such training as your valuable, or rather invaluable, institution affords. I have asked how it is that a man professing to be a physician will not be employed, and will even be stigmatised as a "quack," except he has gone through a regular course of anatomy, physiology, and so forth, and has also attended an hospital and clinical lectures; and the same may be said of the lawyer; and yet a youth is taken into a counting-house or store, wholly ignorant of the duties he undertakes, and having everything to learn. I consider, therefore, that such a system as yours is of the greatest importance both to the employer and employed, as it saves the former the time and labor of teaching every new hand, and the latter the waste of time involved in a long apprenticeship. Your admirable system of real business is a complete remedy for this defect, and I consider that your great success in this department is made clearly manifest by the air of reality that your students display in their model transactions, and by their downheartedness when they fail to meet their engagements, imaginary though they be. I can testify to the excellence of your system from personal experience, having at the present time, in the employment of the firm I belong to, three young men who were educated at your establishment.
