MISCELLANEOUS. The Reporter says, that a rumour of an extracreinary character is current in Galt. It is none other than that the Hon, Francis Hincks is about to return to Canada, and that his old friends are already moving to bring him out as an opponent to the Hon, Geo, Alexander in the Gore division! It seems impossible to

trace the rumors to any source. Two companies of Volunteers the Greenwood and Uxuridge, arrived at Ningara on Thursday, and no doubt helped to relieve the monotony of the town as well as the two French companies which had been doing duty there for the past five months. An interesting squabile took place between Major Cinq Mars and a Yankee Major two evenings before the detachment left Ningara, in which broken English and Yankee slang was freely used, but no bones kroken. The pecule of Ningara

were pleased at the change. THREE TROUSAND BARREL FLOWING WELL .-A heavy vein of water was struck at the City of London Well on Friday night, at the depth of 106 feet, the clear, crystaline element flowing up in immeasurable quantities. It has a strong sulphurous taste, and cannot be imbibed with any sort of satisfaction. It is estimated that the flow is over 3,000 barrels per day, At all events, the brook formed a rather modeof the Parliament of the Province of Canada ap- rate Ningara at a breach in the river bank, and dication will be made for a SPECIAL ACT to in- created no little noise in the descent. THE MANUFACTURE OF GLOVES .- The manufacture of French gloves has increased considerably for the last few years. In the year 838 the gloves exported were estimated at 5,516,600 f. There value increased to 25,000,-000f, in 1849, and to 30,900,000f, in 1853 and is still increasing. The kid and lamb skins used for glazed gloves are dressed at Paris, Grenoble, Annonay, Romains and Clarmont. The Paris manfacturers, whose gloves are most highly esteemed, employ workmen from Vendome, Montagne, Verneuil, Mittry and Trembly, and other towns in the departments of the Oise and S.ine et Oise. Kid gloves of secondrate quality are manufactured at Grenoble Gloves called gans de suede are made of the refuse of leather dressers' skins, with the wrong side turned out, and are manufactured wherever glazed gloves are made. Paris and Grenoble are the only two markets for the sale of gloves, the manufacturers in the other towns having depots and agents in the two IN ACCORDANCE WITH THE ABOVE former. Dion's Fire ALARM .- We had the pleasure yesterday afternoon of witnessing the trial of this new and v. r. ingenious Canadian invantion. The representatives of the Royal, North British, Mercantile, Commercial Union, London, Imperial and Home & Colonial Fire 65-y Insurance Companies were present. The invention, which was exhibited and explained by Messrs, Dion & Desaulles, consists of an apparatus somewhat on the principle of an alarm clock and thermometer combined, with wires extending through the room, and attaching to a signal bell, which may be placed a quantly fifteen feet from the main wire, the alarm was sounded in ten and twenty-five taining full cultural directions, -will be ready in a both occasions.
