We have before us a report made to the Citizens' Association of New York, by their LIVERPOOL, 27th .- No news of the City of Council of Hygiene and Public Health, on the Washington and Propontis, both of which are subject of the cholera. This Council is composed of the leading physicians of the citymen of the very highest position for learning and character-and their report treats the subject with the masterly ability which was to be expected. It traces the progress of the cholera in each of its visitations, and shows that in all places the one cause of its prevalence was want of cleanliness. "The following are a few among the nu-

nerous facts cited in proof of this :-"In the city of Buffalo, where there was fearful mortality from the epidemic of 1849, 29th of April, arrived at this port this morn- its principal tavages were witnessed in the ing. Her dates are two days later than those fifthy and undmined sections of the city, and in the purlieus of vice, and levees along the The steamer Propontis arrived at Liverpool canal. In Sandusky, where nearly one-third steamer City of Washington on board. The Dr. Ackley states that a stench pervaded the epidemic were associated with filth, malaria and crowding. In Cincinnati, where the epidemic killed 5,314 persons, out of a population Hearth Rugs. Door mats, Hassocks, of 116,108, it was first associated with local filth and crowding. In St. Louis, 4,557 inhabitants perished out of 50,000. Dr. Mc-The Reform Bill has passed the House of Pheeters reported that the epidemic elected as it chief centres, the crowded tenant buildings, There is considerable uneasiness as to the | nant ponds and open ditches that then abound-Italian Government denies having any warlike | mortality was among the German and Trish | Ottawa, May 4, 1866 population. In New Orleans, when the evidemic appeared, the streets and guttters were filled with filth, so that even the Board of Health declared that 'the elements of putrefaction had accumulated fearfully in every direction, until the atmosphere was polluted by poisonous exhalations, in which a sickly acid smell predominated? "The report then cites numerous proofs

pestilence may be avoided; we select two of "In various towns and cities in England, the actual benefits of preventive measures, the NEW YORK, 6th .- The Herald this morning sanitary work of cleansing, drainage and venontains a highly interesting and full summary | tilation, have been fully tested. For example of the operations of the Eastern Union Tele- the city of Worcester, on the river Severn graph extension expedition, since its start to having been twice scourged by cholera, undertook to avert the later epidemics by means o The article occupies eight columns, and is effectual cleansing and efficient sanitary reguplete with information obtained from Col. lations. The result was, that while the pesti-Ballkley and his assistants during the past | lence swept through the neighboring cities and winter. It entirely puts at rest all question as villages, the populous city of Worcester escato the final and triumphant success of the ped, "and the destroyer of uncleanly cities made a passover with the people of Worcester,

that by proper attention to cleanliness the

from Southampton on the 25th, has arrived. | cleanliness, cleanliness. Not a house was had anticipated the coming pestilence by the PHILADELPHIA, 7th .- The Evening Telegraph | most comprehensive and energetic effort to outilishes the confession of Probst. After des- effectually purge their city of all nuisances, cribing the murder of the boy Cary, he says: and all the known causes that produce or The sight of the blood of the boy produced in localize disease; 2,970 privies were cleansed; me a devilish and bloodthirsty feeling, and I 340 houses were cleaned by authority; 188 family. He disposed of the body of the boy, were closed, etc., and in all the city removed as described before, and then deliterately upward of 6,000 separate sources of nuisances walked over to the house. He entered, and and disease, Cholera sent about 474 persons

some work in the barn. The little fellow | "Is there not in this energetic community ollowed him, and as soon as they sufficient energy, is there not among this were inside the barn, Probst despatched provident people enough provident spirit, to him with a small axe.
