DRIGGS' NEW PATENT. RE THE ONLY INSTRUMENTS A constructed on a truly Scientific Principle. They have greater strength, and will remain longer in Texe than any other Piane The construction is simple and natural, all the extraneous lumber in the body of the instru merely two arched planks of thin wood, like the front and back of a violin ; the strings are attached to a strong Iron frame, which is sepanted and entirely independent of the case, thereby dispensing with the old harp form efstringing by substituting straight bridges, preserving at the same time the Over Strung Bass, of which Mr. Driggs is the Inventor. By these improvements we gain much more vibratory power, at the same time preserving all its

purity and richness of tone. They have received the highest testimenals from the Press, and all the principal artists in the country, among which are : Barry Sanderson, L. M. Gottschalk, . Max . Maretsek, N. Thalberg, Theodore Etabeld, Wm. . Mason, Herman Wollenhaupt, .I. Bartit,

From the N. Y. Herald, Sept. 5 .- Upon a careful examination of Drigg's Piano-Forte. we find the results obtained are a very fin singing tone, great purity and brillianes throughout the entire instrument, not of found in Pianos constructed upon the old plan The N. Y. Times, July 12, says :- We have now an instrument without an equal. It can sing with a smooth delicacy, perfectly unattainable on any other instrument; an ordinary player obtains with no exertion, the fullness of a Grand Piano-Forte, and they must speedily supersede the old styles.

GENTLEMEN :- Having thoroughly examined and tested the Piano-Fortes invented and pa tented by Mr. S. B. DRIGGS, I am of the opinion that the tone resulting from his improvements as exhibited in the instruments under examination, in point of richness, depth and brilliancy, equals that of the best Grand Piano-Fortes and actual tone, power thus approximating closer to what I consider perfection in the untrament than has yet been achieved by any other my tem of monvfacture.
