DRIGGS' NEW PATENT. RE THE ONLY INSTRUMENTS Constructed on a truly Scientific Princi-And is the only true and reliable cure for Syphilis, ple. They have greater strength, and will remain longer in TUNE than any other Piano The construction is simple and natural, all the diseases arising from a vitiated or impure state of extraneous lumber in the body of the instruthe blood, and particularly so when used in conment is despensed with; the sound boards are merely two arched planks of thin wood, like the front and back of a violin ; the strings are attached to a strong Iron frame, which is separa ted and entirely independent of the case, thereby dispensing with the old harp form of stringing by substituting straight bridges, preserving at the same time the Over Strung Bass, of which Mr. Driggs is the Inventor. By these improvements we gain much more vibratory power, at the same time preserving all its purity and richness of tone.

DRIGGS, I am of the opinion that the tene resulting from his improvements Side, Back, and Head, Coughs, Colds, Sore as exhibited in the instruments under examination, in point of richness, depth and brilliancy, equals that of the best Grand Piano-Fortes, and excels them in pure, musical intonation and actual tone, power thus approximating closer to what I consider perfection in the unitwo ment than has yet been achieved by any other .
