OTTAWA, JULY 26. 1866.

Several motions on the notice paper were disposed of by the House vesterday afternoon. One by the member for Ottawa, with the object of reviving a petition, presented in March, 1865, praying for an investigation into the conduct of Judge Lafontaine, led to a discussion which lasted until six o'clock.

In the evening, the House in Committee resumed the consideration of the Upper Canada Assessment Act. A few verbal alter tions, but no important amendments were made to the bill, as reported from the Select Committee. At a quarter past twelve o'clock, all the clauses were passed, and the Committee rose and reported the bill. After a few words of explanation, as to Government business to-day and to-morrow, the House ad.
