

NEW ADVERTISEMENTS.

On no occasion will the names of Old Advertisers be inserted here. Combination Filters and Colours—Bismark Iron. Public Notice—W. A. Ross. Her Majesty's Theatre—John Towson. Birth and Wedding Notices—E. K. Maclellan. Irving & Co. Framed Engravings—The Sale-H. Stinebach. American Inventors—Dumont—R. S. M. Borchert. Special Notices—Canadian Pain Destroyer. Do do—Perry Davis' Pain Killer.

THE Ottawa Daily Times, (Published every morning, Sundays excepted.)

George Cotton, Publisher and Proprietor.

THE DAILY AND WEEKLY TIMES NOW ENJOY THE LARGEST CIRCULATION OF ANY PAPER PUBLISHED IN THE OTTAWA VALLEY—ISSUING OF THE DAILY OVER 3,000 AND WEEKLY OVER 4,000!

Advertisements are inserted in the Daily at the following rates: Daily—One line for 30 days, per line, \$1.00. Weekly—One line for 30 days, per line, \$3.00. Transient Advertisements, first insertion per line, 50c. All subsequent insertions, per line, 25c. Yearly Advertisements specially contracted with, and at a liberal advance made.

THE Ottawa Weekly Times, (Published every Friday morning.)

George Cotton, Publisher and Proprietor.

An addition of from 30 to 50 subscribers is added every week to the subscription list of the Weekly. Advertising in Weekly, first insertion, per line, 50c. All subsequent insertions, per line, 25c. The Daily Times is delivered every morning at Kemptville, Spencerville, and all Stations on the Ottawa and Prescott Railroads, at an early hour, and at Prescott by 10 a.m. It can be had by Mr. Withers, at Kemptville, and at Prescott at H. M. O'Brien's News Depot. Down the river, per Steamer Queen Victoria, Capt. A. Bowie, it reaches Georgetown and Elfringham by noon, thus placing in the hands of those living at a distance of from 20 to 60 miles from the Capital, all the latest news of the day, at almost as early an hour as that of residents.

JOB PRINTING, Smallest Card to a Mammoth Poster.

With fast presses, and all the appliances of modern material, competition in this branch is defied. All orders from the country specially and promptly attended to.

EXCURSION! THE STEAMER QUEEN VICTORIA.

Will, during the Session of Parliament, convey to and from Ottawa, in the month of August, 20 HALF PASSENGER—\$1.25.

The Ottawa Times

OTTAWA, JULY 31, 1866.

The "Addenda" to the Report on the State of the Militia, a blue book of 20 pages, has just been distributed. It relates chiefly to Lower Canada, and we see with pleasure that the Ottawa volunteers are highly spoken of by those of the officers who make mention of them.

It is a pleasing incident that among the first items of intelligence brought across the Atlantic Cable were those which state that "a treaty of Peace has been signed between Austria and Prussia." Peace by any channel, is always welcome news, but coming as it does almost simultaneously with the establishment of transatlantic telegraphic communication, the announcement presents something of the character of what is called "a remarkable coincidence."

The ocean steamers have now only a short gap to fill up in making the connection between their latest, and the telegraph's first intelligence, and then we shall cease to look to them as the bearers of important news from Europe. So the world moves.

Yesterday morning we called attention to the gratifying announcement which reached the city on Sunday, that the telegraph cable had arrived at Heart's Content, Newfoundland, having successfully completed the laying of the Atlantic Cable on the morning of the 27th inst. Subsequent despatches have confirmed the pleasing news, and yesterday we were not only enabled to lay before our city readers by an "extra" issued from this office, an extract from the London Times of Friday morning last, but also a letter summarizing of important events in connection with the great exploit in Europe, for particulars of which see under our telegraphic head.

Later despatches bring us a message of congratulation from Her Most Gracious Majesty to the President of the United States which crossed the Atlantic on the 27th, and the reply of the President thereto, which we have every reason to believe has by this time reached the Queen. Both despatches breathe the spirit of good feeling between the nations, which the accomplishment of such a great result is so well calculated to inspire.

We ought not to forget on this occasion that we are soon to be one people, under one Government with our fellow Colonies of Newfoundland, and we think that as our Canadian Legislature is at present in session in which to be the Capital of the future Confederation, the great event which brings us within a few hours' distance of the Mother Country, ought to be signalled in some formal manner.

EXPLANATION.—We sincerely regret to learn that offence has been taken at the wording of the local item noticing the fire at Mr. Fissette's boarding house. The information was put in shape as received from a party who was present, and without the slightest intention of giving offence to any nationality or to any member of the Legislature.

Yesterday, a great many private bills were advanced a stage. A good deal of discussion took place just before six o'clock, on the bill to permit the issuing of a patent for "a certain new and useful invention," in favor of Henry John Rowell. The ground given over in debate covered the whole question of the issue of patents for inventions already in use in other countries, and a disposition appeared on the part of some members to oppose all special legislation on the subject. The view taken by the Provincial Secretary that it would not be advisable to amend our patent laws at present, in view of an early assimilation of the patent laws of all the British North American Provinces; and that, therefore, these special cases should be dealt with by the House, appears to be a reasonable one, as undoubtedly many of these bills contemplate the introduction of important private enterprises which would not, on account of the capital involved, be undertaken without the protection afforded by a patent. We do not know anything of the special merits of this particular bill, but it appears very evident that in the absence of a general provision in the patent law to meet the cases contemplated by the several bills now before the House, it would be an injury to the country to reject them merely on the general principle.

In the evening the private bill list was nearly exhausted. A good many bills were passed through Committee, some seven of eight passed the second reading, and of the House adjourned at a quarter to 12 o'clock.

The Grand Trunk Railway amalgamation bill, as it is generally called, after four divisions, two of which we give in our Parliamentary report. The discussion was very brief, members having pretty well exhausted their eloquence on the bill during its previous stages, so that to-day the opposition to it was more for party or political effect in the country, than with any hope of defeating the measure. The hostility to it appeared, from the first, to be based on political considerations, and those not of the soundest character.

Thus one of the chief objections by a prominent opponent, was in the additional political power that would be wielded if these two powerful Corporations, the Buffalo and Lake Huron, and the Grand Trunk Companies were amalgamated; though in point of fact, it was well known to every intelligent member of the House, that the two companies could have amalgamated by the law as it now stands.

There was something almost comical in the indignation with which the member for Lambton received the announcement made by the Hon. Mr. Ross, after the third reading of the bill, that its promoters intended to reduce the harbour dues, which had formed the pretext for Col. Rankin's amendment. The hon. gentleman looked upon it as an insult to the dignity of the House, that any such information should be given to it when he should have the power to deal with the question itself. He should have repressed his irritation in the moment of debate, the announcement was certainly not an improper one, and the country may well hope to see it carried out, since, according to the member for Huron, the arrangement between the two Companies which this bill is framed to legalize has already saved the farmers in his constituency four cents a bushel on their grain.

The bill, no doubt, became law during the present session, as the Upper House, having less the fear of impatient constituencies before it, will be inclined to consider the measure on its merits.

LOCAL NEWS. FRAMED ENGRAVINGS.—A splendid lot of fine engravings, framed, are now on sale at E. Eaton & Co.'s, Rideau Street, Call and examine them.

PERSONAL.—Dr. Wood, who has been from the city for a few days, professionally will return to-day (Tuesday), per afternoon train.

THE CONCERT LAST EVENING.—The concert last night, in aid of the French Canadian Orphan Home, was a great success. A full report will be given in our next.

MR. LEVY'S PERFORMANCE.—A notice of Mr. Levy's performance at the theatre is unavoidably crowded out to-day; it will appear tomorrow. Several letters have also been deferred.

THE READY MONEY DOES IT.—The cash system is now, and very properly so, superseding the old and villainous order system. Pay the ready cash for everything, and in return have the speller for what you have to dispose of. There are some old fogies who don't believe in this well, just let them attend the sale of valuable furniture, at Mr. Jolyan's, in the rear of the Russell House, to-day, and Mr. Rowe the Auctioneer, will make them understand that the ready cash is the article to command a bargain with.

DEPARTED WORTH.—It is with great pleasure we notice that the Toronto Volunteer Relief Committee, have taken proper steps to erect a monument to the memory of the Canadian Volunteers, who fell in defence of Canada during the recent Fenian Invasion; the contributions, individually, are not allowed to exceed \$1.00, in order that the sum required may be contributed from every locality in Canada. Subscription Lists for the above fund are now open at the Royal Canadian Bank, Sparks Street, and at the Bank of Upper Canada, Wellington Street. We feel confident in asserting that Ottawa will supply its quota for this noble and praiseworthy object.

ASTORIA NEWS.—We have just received the first number of a new weekly paper, called the North Wellington Times; W. G. Coluden, Editor and Proprietor. It is a respectable sheet, and the following tells of its prospects: "Our political creed will be that of the Liberal Conservative party—insisting our principles on a firm attachment to our beloved Queen, an unwavering adherence to the broad principles of our admirable Constitution, and advocating our connection with the mother country in all its integrity, aiming to do justice to all parties, supporting all measures calculated to benefit the country, no matter from whom they emanate, to aid in practically promoting the best interests of the Province, by the introduction of capital and skilled labour, and fostering national progress in all things." We can assure our friends in North Wellington that Mr. Coluden is just the right man, and is deserving of all the support they can bestow upon him. His opponent, The Times, they may rely upon receiving in return a paper conducted in an upright, and strictly conservative manner. We wish The Times and its proprietor a long and successful career.

country. He would not oppose the going into Committee, but would certainly move some amendments. Hon. Mr. MACDONALD also opposed special legislation upon such subject, and Hon. Mr. C. CAMERON said there might be some reason for setting aside the general provisions of the patent law, in favor of particular bills to start large manufacturers in the country, and who would not invest their capital, but who would not invest their private bills Committee without any proper consideration having been given regarding them. The House then went into committee. Hon. Mr. MACDONALD stated that last year it had been considered that some amendments to the general patent law was desirable, to admit of the granting of patents for certain inventions in use in other countries. As he had said, it was very probable that the patent laws of all the Provinces would be assimilated in a year or two it was not deemed advisable to change the general law at present, hence he had consented to the passing of these bills to meet the few special cases which it seemed desirable to provide for. He intended, as he had said before, to move an amendment to the general law, and he applied to give sufficient notice and proof of the allegations. Hon. Mr. JONES opposed the bill, and moved by 21 to 25.

The Committee rose and reported the bill as amended. Hon. Mr. JONES moved that a third reading on Wednesday afternoon, and Hon. Mr. MACDONALD presented certain returns, and it being six o'clock the Speaker left the chair.

After recess. The following bills passed through Committee: To vest the Protestant Burial Ground at Hudson in the Incorporated and Church of St. James Church, Vancouver.—Hon. Mr. Abbott.

To amend the issue to Messrs. J. D. Whely and J. J. Storer, of Letters Patent for a new and improved system of treating Metallic Ores.—Mr. Shanty.

To incorporate the Crystal Lake Cemetery Company.—Mr. Knight.

To enable John Ault to sell certain Real Estate.—Mr. Irvine.

To divide the Municipality of Gaspe Bay, St. John's, into two separate Municipalities.—Mr. Le Boulle.

To extend the provisions of the Act 25th Vic., Chap. 40, entitled an Act to confirm and establish certain Roads in the Township of Reach.—Mr. C. Cameron.

To amend certain errors in a conveyance from the late John Dixon, deceased, to W. Westmacott, dated 1st September, 1854, and to confirm a sale of certain lands thereunder.—Hon. Mr. Cameron.

To incorporate the Bonaventure into a separate Municipality.—Mr. Geoffroy.

To authorize the admission of William Lynn Smart, as a Barrister in Upper Canada.—Mr. Powell.

The Buffalo and Lake Huron Railway Company Capitalization Act, 1866.—Mr. W. M. C. Cameron.

To incorporate the Belleville and Marston Railway Company (from Legislative Council).—Mr. Morrison.

To incorporate "The Dresden Great Western Oil Company."—Mr. MacGill.

To incorporate the Boston Mining Company.—Mr. MacGill.

To amend the Charter of the Quebec Fire Assurance Company.—Hon. Mr. Allen.

To incorporate the Union Fire, Ocean and Inland Marine Insurance Company.—Hon. Mr. Ross.

Further to amend the Charter of the Bank of Montreal.—Hon. Mr. Ross.

To amend the Act incorporating the City of Three Rivers.—Mr. DeNiverville.

To amend the Act for the completion of the works of the North Shore Railway and St. Maurice Land and Navigation Company.—Hon. Mr. J. S. MACDONALD.

To amend the Charter of the Bank of Montreal.—Hon. Mr. Ross.

To amend the Act incorporating the City of Three Rivers.—Mr. DeNiverville.

To amend the Act for the completion of the works of the North Shore Railway and St. Maurice Land and Navigation Company.—Hon. Mr. J. S. MACDONALD.

To amend the Charter of the Bank of Montreal.—Hon. Mr. Ross.

To amend the Act incorporating the City of Three Rivers.—Mr. DeNiverville.

To amend the Act for the completion of the works of the North Shore Railway and St. Maurice Land and Navigation Company.—Hon. Mr. J. S. MACDONALD.

On Saturday evening last, Dr. VanCortlandt having received a requisition to cause an inquest to investigate the cause of the above fire, summoned a jury to meet for that purpose at the City Hall on Tuesday evening at 6 o'clock. By a Jury—Has no conception of the origin of the fire. The coroner stated that it would be necessary to view the premises—several jurors had already seen it, though they were not present, but the coroner, with first step insisted on that proceeding as the first step. On arriving at the house the jury were admitted into the house and proceeded to examine the room, after which they returned to the City Hall.

E. J. O'Neil sworn.—Yesterday, about two o'clock, a fire broke out in the house of Mr. Fissette, saw smoke issuing from the window, and thought it might come from outside. He went to the door, and saw a fireman throw a pail of water on it. There were several other firemen, and they were all under the shelves, which was on fire. A fireman threw a pail of water on it. There were several other firemen, and they were all under the shelves, which was on fire.

William Wade, agent for the Hartford Fire Insurance Company sworn.—On or about 25th of July I issued a policy of insurance to the amount of \$1,000 to Joseph Fissette on his household goods and furniture; had not examined the goods. On Friday afternoon last, I was informed there was a fire at Mr. Fissette's house, being number 21, on the south side of Albert street, in the City of Ottawa, was the house of Mr. Fissette, which was insured by me. I was informed that the fire had occurred in a room where there was no stove or other mode by which fire could enter; that the house was vacated that morning by a boarder.

Hermicide Casgrin, boarder.—My room in the house of Mr. Fissette, was on the second floor, and I was in the room when the fire broke out. I saw the fire in the room, and I saw the fire in the room, and I saw the fire in the room.

John Murphy, boarder.—I was in the room when the fire broke out. I saw the fire in the room, and I saw the fire in the room, and I saw the fire in the room.
