PIANO - FORTES!

A RE THE ONLY INSTRUMENTS They have greater strength, and will remain longer in Tune, than any other Piano. The construction is simple and natural, all the extraneous lumber in the body of the instrument is dispersed with; the sound boards are merely two arched planks of this wood, like the front and back of a violin; the strings are attached to a strong iron frame, which is separated and entirely independent of the case, thereby dispensing with the old harp form of string ing by substituting straight bridges, preserving at the same time the Over Strung Bass, of which Mr Daigos is the Inventor. By these improvements we gain much more vibratory power, at the same time preserving all its purity and richness of tone.

In presenting the AUTONATIC ORGAN, we boldly announce the greatest triumph in musical instru WHEN THE BLOOD IS THICK, THE circulation clogged, and the humors of the body rendered unhealthy by the heavy and greasy secretions of the winter months. This safe, though powerful detergent, cleanses every portion of the system, and should be our instruments are celebrated. Another objection to this method of blowing was, that both feet being occupied, no opportunity was offered for the management of the swell. Within the past two years, instruments constructed on this European plan of "double blowers," have been manufactured in this country, and to counteract this difficulty (want of e swell) a lever has been prejected from the centre of the instrument, to act upon upon the swell, AND OPERATED BY THE KAES.
